### Message Schemas for IDOC Operations in the my SAP adapter ...

IDoc (Intermediate Document) is a standard SAP document format. IDocs enable the connection of different application systems using a message-based interface. The XML/IDoc interface allows SAP systems to exchange business data transactions with non SAP systems via EDI (Electronic Data Interchange).

Intermediate documents (IDOCs) are standardized EDI-like documents supported by SAP for asynchronously communicating with both SAP and non-SAP systems. IDOCs are used to send and receive business documents like sales orders to or from a trading partner 's SAP system or external program.
