Organic Chemistry / Edition 8 by John E. McMurry ...

With the 8th Edition, Robinson draws upon her exceptional teaching skills to provide new interactive experiences that help identify and address students' preconceptions. Robinson complements active engagement in the text with a new media program that increases student awareness of their learning process via Mastering Chemistry and the Pearson eText, allowing instructors to choose the level of interactivity appropriate for their classroom.

I bought the first edition of McMurry's

Organic Chemistry and loved it. It has

become thicker and it has many more

pages than that first edition, but of course it

covers many more topics. This book has

been my personal favorite over the years.

Other OC textbooks that I like are Fox and

Whitesell's and Bruice's.
