BEHAVIOR IN ORGANIZATIONS, 9/e, by Shani and Lau, is a
paperback text that takes a hands-on, experiential approach (learning-by-

doing or learning-in-action) to organizational behavior. The majority of the
exercises, role-playing simulations, and cases were developed in and for

management training workshops. The cases themselves represent different
industries and organizations around the globe with diverse size, product,

service, and cultures. Instructors appreciate the multiple interactive
teaching methods for each teaching module. Experiential methods provide

a powerful stimulus for learning, growth, and change by helping
participants focus on their own behaviors and reactions as data. The text

begins with structured, less personal exercises that are readily recognized
as relevant to human effectiveness in organizational settings. Personal

growth and self-understanding activities are introduced later in the text,
after students have had enough experience to become more comfortable

and ready for them. The ninth edition of this book, like the previous
editions, is designed to meet needs that other texts do not satisfy.
