This fourth edition makes it clear that all who are interested in the sustainability of South Africa -- and Africa -- must put human resource management (HRM) at the very core of the management of organisations generally. The content is aligned to outcomes that are geared towards analytical and critical thinking about the theory and practice of HRM in South Africa. The African context is addressed, and ample information about HRM aspects 'elsewhere in Africa' is provided. This edition breaks away even further from the traditional structure of so many standard HRM textbooks. It challenges a broadening of the 'agenda' and scope of HRM work: HRM is not only about managing employees, but also about managing the work and the people who do the work of and in organisations. This may involve alternative ways of getting the work of organisations done superiorly. This book will help you to apply HRM effectively to achieve its ultimate aim, namely to add value to people, to organisations and to society. This comprehensive book is organised around themes such as: Developing an

appreciation for the context of HRM in South Africa; Strategising, designing and planning as preparatory HRM work; Sourcing work talent; Facing the country's people empowerment challenge; Meeting the reward and care challenge; Handling labour and employee relations challenges; Championing change and transformation; Managing HRM-related information, including HRM and sustainability reporting. Based on most recent theoretical developments, the emphasis is on the practical applications. Samples of relevant documents are included, and an accompanying CD contains a wealth of relevant resources as well as a continuing, integrating case study that serves as a basis for these applications, and individual and group activities. As a package, South African Human Resource Management will be extremely valuable to both current and aspirant managers, and human resource practitioners.

In one comprehensive resource, Organizational Behavior, Theory, and Design in Health Care integrates the study of organizational behavior and organizational theory within the dynamic context of the healthcare industry. Using a unique meso-perspective, award-winning author Nancy Borkowski explores healthcare organizations from both the micro-level (individual behavior in leadership, intrapersonal and interpersonal issues, groups and teams, managing organizational change) as well as the macro-level (the organization as a whole). Future and practicing healthcare managers alike will benefit from [Storytelling and the Future of Organizations](#) Routledge

This revision of ORGANIZATIONAL BEHAVIOR includes a renewed emphasis on the text's multifaceted approach, which is reflected in a new subtitle: SCIENCE, THE REAL WORLD, AND YOU. "Science" refers to roots of the discipline and the way the book is anchored in research tradition--both

classic research as well as leading-edge scholarship. "The Real World" reflects current trends in organizations and takes shape as examples from all types of organizations. "You" reflects the opportunities to grow and develop both as individuals and organizations. The book helps students learn not only the concepts and theories that enhance the management of human behavior at work, but also how to practice these skills. A wealth of proven features, cases, exercises, and examples--including six new focus companies--stimulate interest and discussion; demonstrate how theories and research apply; and prompt cognitive and skill-based learning. Established organizational behavior topics are discussed, including motivation, leadership, teamwork, and communication, as are emerging issues shaping the field. The exciting theme of change clearly demonstrates how attitudes and behaviors within an organization are affected by change and the new opportunities and experiences change presents. Supporting themes focus on globalization, diversity, and ethics.
