This popular textbook offers an inspiring and focused introduction to the study of organizational behaviour and management. The second edition builds on the fresh and innovative approach to the study of management and organization introduced in the first edition. To make the subject matter more relevant

Each chapter has been fully updated by specialist authors who are committed to thinking differently about the

field of organizational behaviour. They effectively identify and explore the key concepts that underpin this diverse subject in their respective chapters, utilising a range of international and everyday examples.
