**Brilliant OS X Mavericks**

---

"O'Reilly Media, Inc."  
Apple Maps. Robert Downey Jr.  
Detroit. These are a few  
examples of great things that just  
needed some hard work and a  
fresh look to really explode.  
After OS X Mavericks was met  
with indifference, many worried  
that future OS X updates would  
continue to be a steady stream of  
minor upgrades and tweaks.  
Continuing the new naming  
convention of Californian  
locations, the new iteration will  
be dubbed 'Yosemite' after  
California's beloved national  
park, with no relation to a certain  
Looney Tunes character. With  
OS X Yosemite, Apple is  
showing the world that OS X is  
not doomed to incremental  
upgrades, and diligently went  
through everything "feature by  
feature, pixel by pixel" to create  
a totally new and improved  
makeover for an old friend. If  
you've used any OS X version  
before, there's no way you'll  
feel totally lost as you forage  
through Yosemite but your  
computer will definitely look and  
feel like a brand new system.  
There are many new changes

both aesthetic and mechanical,  
and this guide will take you  
through it all whether you're an  
OS X spring chicken or a grizzled  
Mac veteran. If this is your first  
Apple computer (congrats on  
making the jump by the way!),  
we will also detail how to switch  
everything over from your old  
PC, and show you the differences  
between Windows and Mac. If  
you are ready to learn the ins and  
outs of OS X Yosemite, grab a  
fresh cup of coffee (decaf if it's  
late) and let's get to work.

Switching to the  
Mac: The Missing  
Manual, Mavericks  
Edition "O'Reilly  
Media, Inc."

Whether you are a  
new convert to Mac,  
still thinking  
about making the  
switch, or just  
want to learn more  
about Macs, this  
book will guide you  
through the Mac OS  
and help you see

---

how making the switch really isn't the great leap that you once thought it was. While this book was written for anyone new to Mac, it is especially geared for people who are switching to Mac from Windows. This book will show you the basics and show you how to do the common day tasks you know on Windows (like right clicking). It will also show you how to get your Mac in sync with your iPad or iPhone, and how to do everyday tasks like change background, find files, and performance tweaks

to keep your Mac running like new. Please note, while every effort has been made to ensure accuracy, this book is not endorsed by Apple and should be considered unofficial.

"O'Reilly Media, Inc."

Provides readers with time saving and productivity enhancing tips intended to improve their user experience with the Mac operating system.

Computer Programming with MATLAB O'Reilly Media

Perfect for new and longtime Mac users, this no-fluff guide to OS X Mavericks is packed with details on system preferences, the desktop, built-in applications, and utilities. You'll also find step-by-step instructions for printing, scanning,

---

networking, sharing, troubleshooting, and going online. A Windows glossary makes switching to Mac (mostly) painless, and keyboard mavens will find a complete list of keyboard shortcuts. New features covered include Finder tabs, tags, multiple displays, iBooks, Maps, iCloud Keychain, Notification Center improvements, and updates to Calendar, Contacts, Notes, and Preferences. - See live previews of documents, pictures, and folders. - Use Mission Control to juggle all your open windows, desktops, and displays. - Dock programs, documents, and folders for one-click access. - Tag your files to make them easy to sort and find. - Use Finder tabs to declutter your desktop. - See all your notifications in one place. - Spread your work

over multiple displays. - Use iCloud to store and access the latest versions of your files and settings online. - Sync your documents, mail, contacts, appointments, reminders, notes, and messages wirelessly across your Macs and iOS devices. - Get instant search results for documents, pictures, music, mail, programs, and more. - Dictate anywhere that you can type. - Play games on Game Center, Apple's online multiplayer social gaming network. - Post to Facebook and Twitter right from the app you're using. - Mirror your Mac's screen to your HDTV wirelessly via AirPlay, or use your HDTV as a full-fledged display, complete with dock and menu bar. - Share files and printers on your home network. - Connect to wireless networks with a couple of clicks. - Set up and

---

manage printers, scanners, and other devices. - Download and install OS X, apps, and updates from the Mac App Store. - Secure your data from thieves and snoops. - Plenty of tips, tricks, and timesavers. - Fully cross-referenced, linked, and searchable.

Contents 1. OS X Basics 2. The Desktop 3. System Preferences 4. Files, Folders & Drives 5. Programs & Documents 6. Printing, Faxing & Fonts 7. Networks & Sharing 8. Online Connections 9. Security & Privacy 10. Maintenance & Backups 11. Switching from Windows 12. Keyboard Shortcuts

Apple Confidential 2.0 Prentice Hall
