In "My Life With Dogs," Roger Welsch has written one of his most entertaining volumes yet. A collection of essays reflecting on mankind's significant other, the dog. Welsch's love of dogs is apparent on every page, and his enthusiasm for the subject adds a level of sparkle to his wit that transcends even his beloved tractor books. 0-7603-2045-4 \$21.95 / MBI Publishing

The Compact Reader
Center Street

This book brings to life one of the most exciting eras in American history. In late 1819 Colonel Henry Atkinson led an expedition to explore the

wilderness of the Upper Missouri and establish sites for a string of military posts, which would extend successful contacts with the Indians as well as exploit trade with British companies. The result of his efforts was a fort system which played a dramatic and significant role in the opening of the territories of the upper plains and the Rockies.

From the foreword:

"One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of

the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of High Line Nudes. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. High Line Nudes captures a seemingly impossible,

but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images. *Lonely Planet Best of Peru 2* Motorbooks International Lonely Planet's Colombia is your most up-to-date advice on what to see and skip, and what hidden discoveries await you. Spreadsheets in Structural Design Longman Publishing Group A freak storm has spawned three tornadoes that are bearing down on the town of Summerville.

Yet under the cover of the storm looms a much more ominous threat: A vindictive killer known as Red who's left a string of victims in his wake and is now bent on exacting his final revenge on the unsuspecting town. But there is an enigma surrounding Red that the FBI is unwilling to admit-closely guarded secrets of something gone terribly wrong beneath the skin of Summerville. Secrets that will destroy far more than one small town. Wendy Davidson is caught in the middle. She's a recovering cult survivor who takes refuge in Summerville on her way to visit her estranged mother. And with her, four strangers, any of whom could be the next victim . . . or the killer. *The Australian Official Journal of Trademarks* Spreadsheets in Structural Design provides a unique and highly practical explanation of the use of spreadsheets to facilitate the design of structures in a range of key materials, such as concrete, steel and brick. Using spreadsheets in this way has important

implications in terms of cost and efficiency, and represents a very useful tool hitherto largely neglected by the design community. Each chapter contains spreadsheet layouts to illustrate the method, drawn from different areas of design and using a range of materials and Codes of Practice. Examples used relate to reinforced concrete, reinforced masonry and steel but the approach is easily extended to other materials and other fields of design. Practising structural engineers, civil engineers and architects will find this book an invaluable guide for the solution of routine design problems. It is also useful reading for advanced undergraduate and postgraduate students of structural design, civil engineering and architecture.

Lance Loud came to represent the gay community, and in addition, embodied the creative spirit and genius of outsider status that became the 1980s and fuelled so much of what has evolved today in our culture in terms of art, music and literature. In 2003, PBS broadcast the program, *Lance Loud: A Death in an American Family*, which was filmed in 2001 while visiting the family again, at the invitation of Lance before his death at age 50. As seen here, short as Lance's life was, it was a monumental one that continues to resonate to the present day.
