age unfolded (1st century A.D.), engendered opposition, created conflict, while ushering in grace. His ideas were considered radical. Why is this so? The NIV Archeological Study Bible (2005), NIV Student Bible, et al. and

corroborating Extra-Biblical evidence provide a context for the Word view about Jesus in Biblical history, and supports aspects of the social and physical sciences in terms of cultural, socio-economic, political, historical, archeological, and

philosophical (apologetics) evidence. As the pages of this book unfold, there is an internal consistency with social science and The Bible. However, where such consistency appeared to diverge, this author attempts to filter out the noise by applying critical thinking criteria to a Worldview that may not be consistent with the Word view. The goal of this book therefore is to provide some exposition (Greek apologia) of the Word and see how the World fits. Born again Christians can be credible scientists and not compromise Gods Word. What it means to be a man or a woman is questioned today like never before. While traditional gender roles have been eroding for decades, now the very categories of male and female are being discarded with reckless abandon. How does one act like a gentleman in such confusing times?  
The Catholic Gentleman is a solid and practical guide to virtuous manhood. It turns to the timeless wisdom of the Catholic Church to

answer the important questions men are currently asking. In short, easy-to-read chapters, the author offers pithy insights on a variety of topics, including • How to know you are an authentic man • Why our bodies matter • The value of tradition • The purpose of courtesy • What real holiness is and how to achieve it • How to deal with failure in the spiritual life

Have you been looking for a small group study to use in your church on the book of Romans that is

easy to understand and apply? Kim Huffman has divided the book of Romans into thirty sessions to be used by small groups. Each section has a short commentary followed by discussion questions that can be used with your small group or even with individual study. There is also a suggested verse from each session to memorize if you are looking for a challenge. This book is not meant to be a commentary or a deep study book. It is

designed to give an overview of what some feel is the most important book in the New Testament. This book will help you as you cruise along the road you are traveling in your Christian life. Thinking on Purpose Partridge Publishing Singapore Christians are all too familiar with the dichotomy between "being a Mary" (sitting at Jesus' feet) and "being a Martha" (being active in ministry). We have been told that before we can do, we first need to be. And this is well

and good. But it is insufficient. Before we can be, we first need to know. We need to know who God is (God's attributes) so that we can then be who we are intended to be in Christ. Only then should we seek to do what he has called and equipped us to do for his glory. This book focuses on knowing God, in his many attributes, so that we can become conformed to his image, in order to do what he's called us to do to bring the gospel to the world. **Leadership through the Lens** Xlibris Corporation This year's worth of devotionals from "Our Daily Bread" offers a daily reading based on a Scripture

Creation Sings His Praise NavPress Television informs our perceptions and expectations of leaders and offers a guide to understanding how we, as organizational actors, should communicate, act, and relate. Because of its pervasiveness as a medium and the impact it can have in influencing expectations of leadership and related behavior within organizational life, television can be understood an important

pedagogical tool. Leadership through the Lens: Interrogating Production, Presentation, and Power is an edited collection of 11 chapters that address representations of leadership in scripted and unscripted workplace settings, showcasing the innovative ways in which diverse leadership styles are illustrated in a variety of contexts on television. With a unique approach at the intersection of leadership and mass media studies, this book shows how the two disciplines coexist to inform how leadership culture is produced

and transformed via presentation and representations on television. The World and the Word: Making Sense of Social Science in an Age of Conflict, Opposition, and Grace Our Daily Bread Publishing Is there a secret that some people seem to know about and use in creating lives that are overflowing with success and abundance? The answer is absolutely yes. Over the years, it's been proven beyond a shadow of a doubt, and yet surprisingly, it remains a mystery

to most to this very day. We are the consequences of our environment, and although we may not recognize the underlying forces influencing our lives each day, the fact is we are all playing a role—for the most part unconsciously—in creating the outcomes that make up our lives. Our thoughts create our feelings, our feelings create our actions, and our actions create our outcomes. Indirectly, yet surely, we alone are ultimately responsible for the outcomes of our

lives through the thoughts we have chosen to emotionally connect with. The silver lining is that we also all have within our reach the ability to directly create new outcomes for a future that is limited only by the thoughts we choose from this day forward. Only through learning how to consistently make constructive thought choices can we begin to make a difference in our lives and in the lives of those around us. Join me on a personal journey, learning

the so-called secrets and making them work for you in creating the life of your dreams. A brand-new world awaits. Why not come and start building it?

Successful senior living doesn't just happen by itself. Retirement needs a plan and key information to make these rich years happy and healthy ones. This book is intended to help retirees prepare for the aging process and to plan to make good decisions about each of the challenges to age well. Our senior life can be the "golden years," but healthy living comes when we make responsible life choices. This book is intended to be a guide to make that happen in your life. on the assumption

which can harm our

The message of the

Gary Inrig brings  
wonderful breadth,  
depth, and balance to  
a very difficult  
subject: forgiveness.  
As one 83-year-old  
theologian, Rev.  
Herb VanderLugt,  
says, "This is the best

book on the subject I  
have ever read."  
Whether it's living  
forgiven, learning to  
forgive, what to do  
when an offender  
refuses to request  
forgiveness, whether  
we're asking, giving,  
or waiting for  
forgiveness, this book  
covers the subject  
with Inrig's on-the-  
mark illustrations and  
solid biblical  
teaching. It is  
impossible to  
exaggerate the  
importance of the  
subject of forgiveness  
to the Christian faith.  
If the Bible makes it  
clear that Christians  
are forgiven people, it  
also makes it clear  
that we are to be  
forgiving people.  
How and when do we  
do that? What does it  
look like?

God uses people daily to communicate His

fragrance and message to us. Too often we don't check to see what aroma or impression we are leaving for others to see, hear, or smell. After visiting someone's home or before checking out of a motel, or when moving, we double check to make sure we haven't left anything behind. Even criminals check to make sure they haven't left any clues at the crime scene to identify them. A story reminded me of this. A robber thought he had committed the perfect crime. He

assumed he left no clues behind. But he didn't count on someone remembering how he smelled. The smell he left behind was what helped convict him. Yes, we leave something everywhere we go.  
Stuart Holden reminded a young man moving from a boarding house of this fact when the young man said, he was just double checking to make sure he wasn't leaving anything behind. "There's one thing you will leave behind, young man, your influence."

state of holy matrimony. The book *Growing a Successful Marriage through Faith* tells of my personal life story, and possibly, there are parts of the story that others may be able to relate to. I think this book is unique in that it combines a life situation caused by personal choices with what the Bible says about the situation then reinforces the lesson through the essence of visuals in nature. In this case, the visuals are photographs of an okra plant that grew between the blocks of concrete.

Questions are presented to the reader throughout the text not only to engage the reader but also to reinforce that the solutions to relationship issues require self-examination and spiritual solution. The answers that you give may be reflections of your problem-solving approach, whether spiritual or otherwise. In the Bible, Jesus often used parables that involved nature, and he performed miracles. Both mediums were used to grow faith. The book also serves to

encourage those who are going through personal trials in their lives, whether marriage, health problems, or any other difficult life circumstance, to study the Word of God and pray that God sends the Holy Spirit to move in their lives. When your relationship with God becomes close-up and personal, he gives you spiritual discernment (that is, the wisdom to put your lives in their proper perspective), and he gives you inner peace.
