Summerborne Books, LLC Content and Language Integrated Learning (CLIL) is an innovative approach referring to educational settings where a language different from the learners' mother tongue is used as a medium of instruction. This other language is found to

be used from kindergarten to such as Japan, Malaysia, the tertiary level, and the extent of its use may range from occasional foreign language texts in individual subjects to covering the whole curriculum. The changes in the technological, economic and social realities of the modern world have led, and still lead, to more frequent contact between people of different linguistic and cultural backgrounds. Globalisation has made the world interconnected; the world is rapidly becoming a mixed global village where the role of languages is extremely important. In such an integrated world, integrated learning is viewed as a modern form of educational delivery. CLIL represents an increasingly popular approach to language teaching and learning not only in Europe, but also in other countries

China, and the United Arab Emirates. Even though CLIL is not of a uniform nature and varies across the world, one of the main arguments for its introduction is that it creates conditions for naturalistic language learning. This book represents selected presentations given at the Ustro? CLIL 2013 conference, which brought together academicians, researchers, teachers and educational authorities from all over the world, and provided them with the opportunity to exchange an interdisciplinary dialogue on CLIL methodologies, as well as the purely practical consequences of implementing such pedagogies in institutional educational practices at the primary, secondary or tertiary level. As such, collection embraces original

contributions across a range of areas of CLIL.

I was thirteen years old when I originally thought of the story, and have written and rewritten it more times than I can count. But six years ago, I met my wife a Filipina from Manila, and there I discovered the wonderful and gracious people of the Philippines. After realizing I would have children of mixed racial

birth. I decided I wanted to give them a hero to look up to from their own culture. I then re-did all nine books; this time the racial, religious and cultural differences gave the book a more defined nature, one of which I was proud. I had given up long ago on trying to get an agent or a publisher to take interest in my book, but that was never my goal. My goal was to give my children a hero of their own heritage, and to inspire them. Win or lose, they win. The Year is 2079 and the earth has recently been discovered by a ruthless alien race known as the T-Challa. Their plan is to enslave the population and to strip the earth of all its resources to maintain and expand their vast empire.

However the earth is not without hope, another alien race called the X'ena's have sent a symbiotic probe to earth to help defend her from the T-Challa. The Probe which takes the name Paladin merges with a human named Caleb Ocode as well as an ancient battleship from a century ago and transforms both into a force to protect the earth. Caleb then man's his ship with the best the earth has to offer as they go out and defend the earth successfully defeating the small fleet sent by the T-Challa. Unfortunately the ship suffers damage and it affects Caleb wounding him, it is quickly discovered that Caleb is dying and with him the mighty ship named

Paladin, the only defense of earth. After searching all possible answers to save himself and protect the earth, Caleb decides to find the X'ena to see if they can cure him before his death, but time is short and the single ship must travel through the heart of the T-Challa Empire to find the X'ena and save Caleb. Will they succeed?

The uniquely prominent role of French intellectuals in European cultural and political life following World War II is the focus of Tony Judt's newest book. He analyzes this intellectual community's most divisive conflicts: how to respond to the promise and the betrayal of Communism and how to sustain a commitment to radical ideals when confronting the hypocrisy in Stalin's Soviet Union, in the new Eastern European Communist states, and in France itself. Judt shows why this was an all-consuming moral dilemma to a generation of French men and women, how their responses were conditioned by war and occupation, and how post-war political choices have come to sit uneasily on the conscience of later

generations of French intellectuals. Judt's analysis extends beyond the writings of fashionable "Existentialist" personalities such as Jean-Paul Sartre, Albert Camus, and Simone de Beauvoir to include a wide intellectual community of Catholic philosophers, non-aligned journalists, literary critics and poets, Communist and non-Communist alike. Judt treats the intellectual dilemmas of the postwar years as an unfinished history. French intellectuals have not fully come to terms with the gnawing sense of what Judt calls the "moral irresponsibility" of those years. The result, he suggests, is a legacy of bad faith and confusion that has damaged France's cultural standing, notably in newly liberated Eastern Europe, and which reflects the nation's larger difficulty in confronting its own ambivalent past.

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his

wanderings through the jungles years in the military, than i ever of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his wanderings through the jungles years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards
