Religion Matters OUP USA

An essential introduction to the world's living religions by experts from each tradition -- published in conjunction with the 1993 Parliament of the World's Religions.

Routledge

Over the past six or more decades, John Friedmann has been an insurgent force in the field of urban and regional planning, transforming it from its traditional

state-centered concern for establishing social and spatial order into a radical domain of collaborative action between state and civil society for creating ' the good society ' in the present and future. By opening it up to theoretical engagement with a wide range of disciplines, Friedmann ' s contributions have revolutionised planning as a transdisciplinary space of critical thinking, social learning, and reflective practice. Insurgencies and Revolutions brings together former students, close research associates, and colleagues of John Friedmann to reflect on his contributions to planning theory and practice. The volume is organized around five broad themes where Friedmann ' s contributions have risen to challenge established paradigms and generated the space for revolutionary thinking and action in urban and regional

planning – Theorising hope; Economic development and regionalism; World cities and the Good city; Social learning, empowered communities, and citizenship; and Chinese cities. The essays by the authors reflect their engagement with his ideas and the new directions in which they have taken these in their work in planning theory and practice.

Feminism and World Religions HSRC Press

Addressing religion and feminism on a global scale, this unprecedented book contains a nuanced and fine-tuned treatment of seven of the world's religions from a feminist perspective by leading women scholars. The fact that these authors share a dual but undivided commitment both to themselves as women and to their traditions as adherents imparts to their voices a prophetic quality, and if Mahatma Gandhi is to be believed, even scriptural value.

The Crucible of Religion Kalimat Press

An introduction to Western Religions (Judaism, Christianity, and Islam), covering their History, Beliefs, Structure, and Practices. Richly illustrated with colourful photos, illustrations, maps and charts, as well as audio files and a selection of relevant ancient texts. This eBOOK provides a solid, jargon-free introduction to western religious traditions for college-level classes or for any reader seeking a neutral presentation of Judaism, Christianity, and Islam by an author who has taught extensively in the field of religion for over three decades.

The Ashgate Research Companion to Feminist Legal Theory Rowman & Littlefield Publishers

The sacrum, or lower back, is an incredibly powerful part of the human anatomy. It's what enables you to stand upright and tall, it unites

your upper and lower body, it roots you to the earth—and it is one of the most common areas where people experience chronic pain and discomfort. Yoga practice can have a transformative effect on lower back problems: it allows the body to gain the range of movement and flexibility that short-circuits the mind's perception of limitation and pain. Yoga for a Healthy Lower Back will help you understand lower back pain and heal it through gentle exercises that can be done even by those with no previous yoga experience. Liz Owen describes the anatomy of the sacrum and the region around it, including the hips and lumbar spine, and illuminates both the Western and Eastern approaches to understanding back pain. She then provides simple, easy-to-learn sequences of yoga poses for general sacrum health and then for specific issues or conditions such as pregnancy, fibromyalgia, and arthritis, among others.

Western Religions: Understanding Our Religious World Routledge

Through the rise of big data and the internet of things, terrorist organizations have been freed from geographic and logistical confines and now have more power than ever before to strike the average citizen directly at home. This, coupled with the inherently asymmetrical nature of cyberwarfare, which grants great advantage to the attacker, has created an unprecedented national security risk that both governments and their citizens are woefully ill-prepared to face. Examining cyber warfare and terrorism through a critical and academic perspective can lead to a better understanding of its foundations and

implications. *Cyber Warfare and Terrorism: Concepts, Methodologies, Tools, and Applications* is an essential reference for the latest research on the utilization of online tools by terrorist organizations to communicate with and recruit potential extremists and examines effective countermeasures employed by law enforcement agencies to defend against such threats. Highlighting a range of topics such as cyber threats, digital intelligence, and counterterrorism, this multi-volume book is ideally designed for law enforcement, government officials, lawmakers, security analysts, IT specialists, software developers, intelligence and security practitioners, students, educators, and researchers.

Cyber Warfare and Terrorism: Concepts, Methodologies, Tools, and Applications Paragon House Publishers

The World's Religions, by beloved author and pioneering professor Huston Smith (Tales of Wonder), is the definitive classic for introducing the essential elements and teachings of the world's predominant faiths, including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, as well as regional native traditions. This revised and updated edition provides sympathetic descriptions of the various traditions, explaining how they work "from the inside," which is a big reason why this cherished classic has sold more than two million copies since it first appeared in 1958.

America Through the Eyes of China and India
Shambhala Publications

Seven Testaments is volume one of a trilogy, introducing and supplementing the already popular academic texts, *Three Testaments: Torah Gospel and Quran* (2012) and *Four Testaments: Tao Te Ching, Analects, Dhammapada, Bhagavad Gita* (2016).

Organized in three parts, *Seven Testaments* will cover the foundations of how these testaments were formed, the essence of each one of the testaments and a section of primary source documents that frames the testaments in a modern setting.

Build your knowledge of world religions with this beginner's guide.

Encountering World Religions Routledge

Terrorists and peacemakers may grow up in the same community and adhere to the same religious tradition. The killing carried out by one and the reconciliation fostered by the other indicate the range of dramatic and contradictory responses to human suffering by religious actors. Yet religion's ability to inspire violence is intimately related to its equally impressive power as a force for peace, especially in the growing number of conflicts around the world that involve religious claims and religiously inspired combatants. This book explains what religious terrorists and religious peacemakers share in common, what causes them to take different paths in fighting injustice, and how a deeper understanding of religious extremism can and must be integrated more effectively into our thinking about tribal, regional, and international conflict.

Philosophy of Religion Oracle Institute Press, LLC

Keith Yandell's *Philosophy of Religion*: A

Contemporary Introduction was one of the first textbooks to explore the philosophy of religion with reference to religions other than Christianity. This new, revised edition explores the logical validity and truth claims of several world religions--Christianity, Judaism, Islam, Hinduism, Buddhism, and Jainism--with updated, streamlined discussions on important topics in philosophy of religion such as: Religious pluralism Freedom and responsibility Evidentialist Moral Theism Reformed Epistemology Doxastic Practice Epistemology The problem of evil Ontological and cosmological arguments Other new features include updated Questions for Reflection, and new Annotated Bibliographies for each chapter, as well as an updated Glossary. This exciting new edition, much like its classic predecessor, is sure to be a classroom staple for undergraduate students studying philosophy of religion, as well as a comprehensive introductory read for anyone interested in the subject.

Illustrated World's Religions Zondervan Academic
World Religions in Practice introduces five of the world's great religions - Hinduism, Buddhism, Judaism, Christianity, and Islam - and explores how they are lived and expressed in custom, ritual, and

symbol. A major new textbook exploring the world's great religions through their customs, rituals and everyday practices - by focusing on this 'lived experience' it goes beyond many traditional introductions to religious studies. Adopts a directly comparative approach to develop a greater understanding of the nature of religion. Each chapter engages with an individual theme, such as birth, death, food, pilgrimage and ethics, to illustrate how religious practices are expressed. Broadens students' understanding by offering an impartial discussion of the similarities and differences between each religion. Includes chapter-by-chapter opening themes and summaries, and will be accompanied by a website at www.blackwellpublishing.com/gwynne featuring additional resources and study questions.

International Perspectives on Citizenship, Education and Religious Diversity Fortress Press

Daoism is a global religious and cultural phenomenon characterized by multiculturalism and ethnic diversity. *Daoism: A Guide for the Perplexed* offers a clear and thorough survey of this ancient and modern religious tradition. The book includes an overview of Daoist history, including key individuals and movements, translations of primary Daoist texts, and discussions of key dimensions of Daoist religiosity, covering primary concerns and defining characteristics of the religion.

Specifically designed to meet the needs of students and general readers seeking a thorough understanding of the religion, this book is the ideal guide to studying and understanding Daoism as a lived and living religious community.

Non-Western Educational Traditions Knopf Books for Young Readers

An illustrated introduction to comparative religion, discussing Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Taoism.

Manufacturing Religion SUNY Press

Citizenship is high on the agenda of education systems in many of the world's democracies. As yet, however, discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship. *International Perspectives on Citizenship, Education and Religious Diversity* brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions. Together, these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship

education. The chapters address and extend debates over the nature of citizenship in late modernity, highlighting local and global dimensions of citizenship in relation to issues of national, religious, ethnic and cultural identity. As well as emphasising the role religious education has to play in citizenship education, this book also covers wider issues such as state-supported faith schools and cultural diversity in relation to common citizenship. The authors argue that critical, yet reflective, approaches to religious education have a distinctive and valuable contribution to make to citizenship education. Issues addressed within the study of religions are related to new forms of global and cultural citizenship, as well as citizenship within the nation state. Ultimately, this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion, religions and religious diversity within an inclusive educational practice.

Smith's classic *The World's Religions*, this stunning pictorial presentation refines the text to its wonderful essentials. In detailed, absorbing, richly illustrated, and highly readable chapters on Hinduism, Buddhism, Confucianism, Taoism, Islam, Judaism, Christianity, and primal religions, we find refreshing and fascinating presentations of both the differences and the similarities among the worldwide religious traditions. The approach is at once classic and contemporary, retaining all the empathy, eloquence, and erudition that millions of readers love about the earlier edition, while being edited and designed for a contemporary general readership. This delightful marriage of engaging text and remarkable pictures vividly brings to life the scope and vision of Huston Smith's expertise and insight. **Our Religions** Oxford University Press on Demand Religion is commonly viewed through the lens of the world's religious traditions, stressing the differences, and often the conflicts, among them. The author of this book instead presents religion as a common and universal human phenomenon, based deeply in a human nature shared by all. In this view, the underlining and unifying principle of religion is a particular affirmative attitude toward life, which he presents as the Ultimate Value, and as such the key cultural constituent and defining factor of all religion. This Ultimate Value finds its expressions in various civilizations, and results in a variety of forms; these are what we know as the world's religious traditions. By analyzing the roles of both culture and civilization in their attitudes toward life,

Ninian Smart on World Religions: Traditions and the challenges of modernity. I. Individual traditions. Buddhism. 'Mysticism and scripture in Theravada Buddhism' Wipf and Stock Publishers
Retaining all the beloved qualities of Huston

the author places religion beyond religious traditions, and shows how the latter, regardless of whether they are theistic or atheistic, draw their principles from the former, mainly by promoting the Golden Rule in its applications.

Seven Dilemmas in World Religions Harper Collins

This brief and concise handbook on "World Religions" will examine and survey the history and origins of seven non-Christian religions that are vastly different from Christianity in many ways. These religions that will be investigated include: Hinduism, Jainism, Buddhism, Confucianism, Zoroastrianism, Sikhism, and Islam. There are many so-called "Christian" religions that exist in our world today, such as, The Jehovah Witnesses, Mormonism, Christian Science, The Way International, and the World-wide Church of God. In these so called "Christian" religions, Jesus is regarded as a central figure. The reason that this examination is necessary is that, in all of these seven non-Christian religions, Jesus Christ is NOT a central part of their teaching or doctrine. At most, as in Islam, Jesus is regarded as just a prophet, a good moral teacher, or as just another historical figure for most non-Christian religions. In light of this reason, we feel it is a worthy investigation to examine and survey

these seven religions in which Christ has no special significant part to play. This concise study will examine the nature and origins of these seven world religions, their basic doctrines and beliefs, and will look at their historical roots, and the results of their impact upon the world. Also, we will examine "how" their central teachings and doctrines differ from historical Christianity. It is the authors hope that the reader will gain some new insights as to the religious nature of man, and see how the search for real meaning and true religion has manifested itself in many different forms throughout history. This handbook is a MUST READ for everyone seeking understanding of how Christianity is uniquely different from these other seven major world religions.

The Daoist Tradition Rockridge Press

This book offers a powerful critique of traditional religion scholarship, and particularly the oft-repeated bromide that 'religion' is a sui generis phenomenon.

Ninian Smart on World Religions Rowman & Littlefield Publishers

A religion is a system of stories, and there is no better way to engage with the world's religions than through the stories that animate their beliefs and practices. Through the exploration of these ancient stories and

contemporary practices, Stephen Prothero, a New York Times bestselling author and gifted storyteller, helps students better grasp the role of religion in our fractured world and to develop greater religious literacy. Videos and an award-winning adaptive learning tool, InQuizitive, further engage students and help them master core objectives and develop their own religious literacy.
