Ian 'Peewee' Wilson has been singing bass doo-wop with iconic vocal group The Delltones since the 1950s and the First Wave of Australian pop. In this breezy and brilliant memoir, Peewee recalls the highs and inimitable lows of life fronting Australia's longest-performing vocal group. Beyond the stage door he reveals the secret to his longevity: a larrikin spirit honed in his beach-bumming youth, and a wide-eyed curiosity that led him to dabble in hallucinogenic substances and chase Playboy Bunnies (not at the same time). It's all part of Peewee's never-ending search for the underlying meaning of it all. Come a little bit closer to the Beanpole of Bop.

On the edge of medieval maps, monsters roam. In the west, pilgrims take well-traveled roads to Rome and Compostela. In the east, Old Testament history unfolds. And at the center, in the city of Jerusalem, Jesus saves the world. In *A World Transformed*, Lisa Deam takes us on an incredible journey through medieval maps. Despite their curious appearance, these maps, as Deam shows, are surprisingly

modern. In their monstrous, marvelous sights lie treasure troves of wisdom to guide twenty-first-century Christians on their walk with God. Each chapter in this geographical journey links medieval maps to biblical concepts and spiritual practices that transform our faith and our world.

When asked what my book was about, I would almost instantly blurt out self-help; but as the book was coming to an end, I realized that the book was more than just a self-help book. This book is a product of the world and all the people in it. While writing, I knew I wanted to make people feel good about where they were in their lives and where they dream to be. And I believe I did that. This book takes the reader all over the place. African American history, peoples personal struggles, and just plain old encouragement will be discussed in this book. And I even take it a step further by sharing my personal struggles with everyone. This book should uplift all the readers, and I hope it does just that. So enjoy, and thank you for the support.

A controversial critique of an iconic philosopher. Gilles Deleuze was one of the most influential French philosophers of the last century. Michel Foucault famously suggested that the 20th century would be known as "Deleuzian." His powerful philosophy of desire, difference and "nomadic thought" seemed to hack away at all previous hierarchies in political and philosophical thought, opening a space for radical democratic transformation. Thinkers such as Jameson, Badiou and Negri all acknowledge his work as a profound influence. Peter Hallward's new book challenges the hegemony of Deleuze's work, aiming to go right to the heart of his philosophy. It engages with the central idea that informs virtually all his work: the assertion of an unlimited creative power. Exploring the ways in which Deleuze dissolves anything that might inhibit the expression of this creativity, Hallward accuses Deleuze of being a spiritual and "other-worldly" philosopher, rather than a theorist of material complexity and difference. Hallward argues that the problems of conflict and solidarity are effectively dismissed in Deleuze's work as is the possibility of any political transformation. This powerful and thorough critique shows once and for all that the Deleuzian century is over. If we want to change the future we need to look elsewhere.

The most enduring challenge to traditional monotheism is the problem of evil, which attempts to reconcile three incompatible propositions: God is all-good, God is all-powerful, and evil happens. The Prince of This World traces the story of one of the most influential attempts to square this circle: the offloading of responsibility for evil onto one of God's rebellious creatures. In this striking reexamination, the devil's story is bitterly ironic, full of tragic reversals. He emerges as a theological symbol who helps oppressed communities cope with the trauma of unjust persecution, torture, and death at the hands of political authorities and eventually becomes a vehicle to justify oppression at the hands of Christian rulers. And he evolves alongside the biblical God, who at first presents himself as the liberator of the oppressed but ends up a cruel ruler who delights in the infliction of suffering on his friends and enemies alike. In other words, this is the story of how God becomes the devil—a devil who remains with us in our ostensibly secular age.

The Vaqueiros de Alzada, a cattle-herding people in the Asturian mountains of Spain, have

one of the highest suicide rates in Europe—and an attitude toward death that gives this statistic unusual meaning. This World, Other Worlds considers death among the Vaqueiros as a central cultural fact which reveals local ideas about the origin and destiny of humans, the relations of humans and animals, the configuration of the universe, and the nature of society. Interested chiefly in the conceptual and meaningful aspects of death, María Cátedra focuses on the cultural resources with which the Vaqueiros confront their own mortality—how they experience death and what this reveals about the way they see this world and other worlds. Applying sensitive ethnographic insight to a rich body of oral testimony, Cátedra discloses an unsuspected symbolic universe native to the Vaqueiros. Death is seen here in close, coherent relation to pain, age, and suffering; sickness and suicide, one must understand the cultural valuation of different ways of dying and the conditions under which suicides take place. To understand what it means to be a Vaqueiro is to understand how suicide can be perceived by a people as acceptable. A groundbreaking work in European ethnography, This World, Other Worlds takes symbolic analysis to a new level. In its illumination of local conceptions of death, grace, and sainthood, the book also makes a substantial contribution to the anthropology of religion.

An examination of the sources and evolution of personal authority in one Islamic society Sufi Heirs of the Prophet explores the multifaceted development of personal authority in Islamic societies by tracing the transformation of one mystical sufi lineage in colonial India, the Naqshbandiyya. Arthur F. Buehler isolates four sources of personal authority evident in the practices of the Naqshbandiyya—lineage, spiritual traveling, status as a Prophetic exemplar, and the transmission of religious knowledge—to demonstrate how Muslim religious leaders have exercised charismatic leadership through their association with the most compelling of personal Islamic symbols, the Prophet Muhammad. Buehler clarifies the institutional structure of sufism, analyzes overlapping configurations of personal sufi authority, and details how and why revivalist Indian Naqshbandis abandoned spiritual practices that had sustained their predecessors for more than five centuries. He looks specifically at the role of Jama'at 'Ali Shah (d. 1951) to explain current Naqshbandi practices.

The title of Dr. Harris' book suggests that life is like a two-sided coin: it can be an Ocean of Love but can also be a Sea of Troubles. The subtitle clarifies this paradox: first, there are many signs of God's reality and activity in the world, and the first section of the book examines ways in which people are aware of God as both a creative and immanent presence in life. The "signs" of God are not philosophical "proofs" but empirical realities accessible to all people. In the second section, the biblical responses to suffering in the world are explored--through both Old and New Testaments. In the third section the writings of two modern apologists, C. S. Lewis and Philip Yancey, are assessed, and then finally there is a chapter of interviews with people who have known suffering in their lives.

The twenty-first century has witnessed an explosion of speculative fiction in translation (SFT). Rachel Cordasco examines speculative fiction published in English translation since 1960, ranging from Soviet-era fiction to the Arabic-language dystopias that emerged following the Iraq War. Individual chapters on SFT from Korean, Czech, Finnish, and eleven other source languages feature an introduction by an expert in the language's speculative fiction tradition and its present-day output. Cordasco then breaks down each chapter by subgenre—including science fiction, fantasy, and horror—to guide readers toward the kinds of works that most interest them. Her discussion of available SFT stands alongside an analysis of how various subgenres emerged and developed in a given language. She also examines the reasons a given subgenre has been translated into English. An informative and one-of-a-kind guide, Out of This World offers readers and scholars alike a tour of
