Technique and Overview - The Procedure Guide

Guided procedures are created first in the Guided Procedure Browser (wizard), and then in Guided Procedure Maintenance 7.20 The wizard creates guided procedures in three steps: 1.

Overview: Guided Procedures Design Time

A guided procedure (GP) is a set of steps and substeps in an application area. Each step has one or more activities. The activities can be either manual (maintain a logical system, for example),

automatic (activate services, for example) or custom (create a project, for example).

Guided Procedures - SAP Guided Procedure Authoring provides a set of tools such as Browser and Guided procedure logbook to create guided procedure for activities that are performed periodically. Guided procedures are executed in different scopes i.e. technical system, host, and databases and for different application areas.
