In this touching story about the highest-level executive to turn whistleblower of all time, Mark Whitacre tells all. Enormously revealing and moving, this biography shares with its readers how, via faith in God and the patient love of his wife Ginger, Mark is today an inspiring spiritual force for good in the world. Written with finesse and passion, Mark Whitacre Against All Odds reveals the family ' s perspective, especially how Ginger kept Mark alive.

Through her, his story begins where most other incarcerated men ' s ends— in prison. It details how Whitacre got down on his knees in a filthy cell and begged God for guidance; how, from that moment on, he removed fears or doubts in his existence. Liberated after nearly a decade in prison, Whitacre ' s essential message is simple—live by the Golden Rule, always tell the truth, look for the good in everyone, and know that spiritual wealth is far more important than material wealth. Author Stevin Hoover invites everyone to learn why Whitacre is called a national hero by the FBI and a spiritual inspiration by Paul A. Willis who wrote the Foreword. Discover how Whitacre is now dedicated to living in accordance with spiritual principles that apply to everyone ' s life. Well-written, candid, and sincere, Mark Whitacre Against All Odds is one of the best of the world ' s tell-alls—as genial, eccentric, and unique as Whitacre ' s life. Read this book and discover how Mark Whitacre has triumphed against all odds. Says the author "People say there is nothing certain in life except death and taxes. Well, you can add one more thing to that. The only other thing that is as certain in life as death and taxes is that Ginger and Mark Whitacre will never get divorced. It is an impossibility because their love is unshakable."

Decades of research have demonstrated that the parent-child dyad and the environment of the family — which includes all primary caregivers — are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information

about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The tourism industry has increasingly recognized and responded to growing environmental concerns. In recent years, there has been an emergence of a variety of categories of tourism considered more environmentally friendly: green, eco-tourism, and sustainable tourism. Much of the literature that has addressed these developments has been orientated to the destination locale or specific to a development. These texts have not sought to investigate and examine the response of government/national tourist organizations to the international sustainability agenda and the responses/actions of tourism enterprises to this "greening" agenda. This text aims to address this remarkable gap. This indispensable contribution to the field provides a comprehensive, state of the art perspective on progress towards the

objectives of sustainable development within the tourism sector across the globe by focusing on the environmental performance and adoption of environmental management systems by tourism enterprises.
