Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash

The increase in thrillcraft use is responsible for wildlife habitat fragmentation, disturbance of sensitive wildlife, soil erosion, spread of invasive weeds, loss of silence, as well as water and air pollution. With more than one hundred shocking color photographs, Thrillcraft vividly documents the destruction caused by these machines on American public lands. Essays by activists, policy experts, scientists,

and others support the photographs, explain the harm done by these machines, and critique the cultural foundation of this phenomenon. Thrillcraft bears witness to the mindless destruction of our collective natural heritage and offers a vision for a future when the howl of the wind or wolf can again be heard more often than the howl of a machine.

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
