It shares the same platform with several General Motors (GM) mid-size trucks in the United States such as the Chevrolet Colorado, GMC Canyon and Isuzu i-Series. The Chevrolet Colorado name is also applied to a rebadged version of the D-Max in the Middle East and Thailand, although not identical to the American version. Isuzu of Japan introduced the KB20 / 25 series Faster pickup in 1972. The regular wheelbase models were designated "20", while "25" referred to the longer version. Derived from the Isuzu Florian, the Faster shared many components, including doors and the front-end assemblage. It served as a replacement for the Isuzu Wasp, a pickup version of the Bellett which preceded the Florian.
