The Canon PowerShot G16 compact digital camera is the successor to the successful G15 and the first in the G-series to come equipped with built-in Wi-Fi. This facility makes it ideal for sharing images and video on social networking websites, or via email through the Canon Image Gateway. Images can also be uploaded using the maker's compatible iOS(R) or Android device with the download of a free Canon CameraWindow app. The G16's 28-140mm wide-angle lens has an aperture range of f/1.8-f/2.8, making it ideal for shooting in low-light conditions or for capturing a dramatic shallow depth-of-field with soft backgrounds. The camera features Canon's HS System, which combines a DIGIC 6 image processor and a 12.1-megapixel High-Sensitivity CMOS image sensor. Autofocus (AF) times and reduced shooting lag are improved over previous G-series models and continuous shooting speeds of up to 9.3 frames-per-second are possible. The G16 captures 1080p/60p Full HD video and has a built-in stereo microphone and an HDMI output for viewing videos on an HDTV. New shooting

modes include Star mode for capturing the night sky: Star Nightscape will capture stars in a landscape image, while Star Trails will capture trails of stars in a still image; Star Time Lapse Movie will shoot continuous still images of stars and combine them into a video that replicates the motion of the stars in the sky. With the handheld HDR Scene mode multiple shots of a particular scene are combined to create a high dynamic range image without the need for a tripod. This mode includes Natural, Art Bold, Art Embossed, Art Standard and Art Vivid options. The dials and controls on this digital compact camera are styled similarly to those on Canon's range of EOS digital SLR cameras.

The G16 is also compatible with Canon Speedlite flashes and select accessories.

Nathaniel Pike, a headstrong billionaire, is purchasing a piece of federal land in New Hampshire's White Mountains and turning it into a huge, inaccessible parking lot. Orbiting Pike and his aspirations is a cast of

perfectly flawed eccentrics: Marlene, who is shy and vulnerable but also a budding exhibitionist; Stuart, Pike's assistant, who is Marlene's husband and a failed writer; and Heath, who films Marlene's public nudity and turns her into an Internet star. In this grand tale of the folly of the modern world, Mike Heppner skewers the extravagance of wealth, and the class that grows up around that wealth, even as he casts a humane look at the people involved.

All companies, no matter what industry they are in, or what product or service they create, do four basic things. Offer something for sale, sell it, collect money for it, and create content about what they do. Product development, Marketing, Sales, and Finance are all essential to the organization and are typically managed at the VP or CXO level, yet a company's content, which contains all of its intellectual property, is often overlooked. The Content Pool: Leveraging Your Company's Largest Hidden Asset makes the case for placing content creation, management, and distribution on a par with other core strategic business activities. This book covers anaphora resolution for the English language from a linguistic and computational point of view. First, a definition of anaphors that applies to linguistics as well as information technology is given. On this foundation, all types of anaphors and their characteristics for English are outlined. To examine how frequent each type of anaphor is, a corpus of different hypertexts has been established and analysed with regard to anaphors. The most frequent type are non-finite clause anaphors - a type which has never been investigated so far. Therefore, the potential of non-finite clause anaphors are further explored with respect to anaphora resolution. After presenting the fundamentals of computational anaphora resolution and its application in text retrieval, rules for resolving non-finite clause anaphors are established. Therefore, this book shows that a truly interdisciplinary

approach can achieve results which would not have been possible otherwise. Open Access: In July 2019, this volume was retroactively turned into an Open Access publication thanks to the support of the Fachinformationsdienst Linguistik.
