Contains definitions of 100,000 words and phrases for advanced learners of English, and includes pronunciation guides, as well as over 160,000 example sentences.

Collins COBUILD Advanced Learner's Dictionary OUP Oxford

Excerpt from *The Concise Oxford Dictionary of Current English* Again, of the many thousands of old or new scientific and technical terms that have a limited currency some are carried by accident into the main stream of the language and become known temporarily or permanently, vaguely or precisely, to all ordinarily well-informed members of the modern newspaper-reading public. For the purposes of a dictionary that is not to be bulky and yet is to give a fuller treatment than is usual in dictionaries of its size to the undoubtedly current words forming the staple of the language, selection among these intruders is a difficult but very necessary task. The most that can be hoped for is that every one conversant with any special vocabulary may consider us, though sadly deficient on his subject, fairly copious on others the meaning of many learned words that have been omitted as having no pretence to general currency may easily be gathered by reference first to the stem, which is often the subject of an article, or to another word of which the stem is clearly the same, and secondly to the suffix. In another class of words and senses the test of currency has led us to diverge in the opposite direction from the practice

usual in dictionaries of this size if we give fewer scientific and technical terms, we admit colloquial, facetious, slang, and vulgar expressions with freedom, merely attaching a cautionary label when a well established usage of this kind is omitted, it is not because we consider it beneath the dignity of lexicography to record it, but because, not being recorded in the dictionaries from which our word-list is necessarily compiled, it has escaped our notice we have not, however, consulted slang dictionaries nor made any attempt at completeness in this respect. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Oxford Learner's Dictionary of Academic English Oxford University Press, USA

Fully revised and updated for the seventh edition, this dictionary offers clear and concise entries providing comprehensive coverage of biology, biophysics, and biochemistry. Over 250 new entries include terms such as Broca's area, comparative genomic hybridization, mirror neuron, and Pandoravirus. Appendices include classifications of the animal and plant kingdoms, the geological time scale, major mass extinctions of species, model organisms and their genomes, Nobel prizewinners, and a new appendix on evolution.

Concise Oxford English Dictionary Oxford University Press, USA

Seminar paper from the year 1998 in the subject English Language and Literature Studies - Linguistics, grade: 1 (A), University of Zurich (English Seminar), course: Lexicography, language: English, abstract: In this paper, 80 lexicographic definitions from the Oxford Advanced Learner's Dictionary are classified and evaluated, the basic question being the following: are similar words defined in similar ways? The words are classified according to part of speech, concreteness and word frequency, and eight different ways to define a word are considered. The study confirms that concreteness and part of speech have a considerable impact on the way a particular word is defined in the ALD.

skills. The 8th edition features a new interactive
Oxford iWriter and a new 32-page Oxford
Writing Tutor, specifically designed to improve
writing skills." --pub. desc.
Merriam-Webster's Collegiate Thesaurus Oxford
University Press
Produced by Oxford's American Dictionaries
Program, and drawing on the expertise of scores of
American scholars and advisors, The New Oxford
American Dictionary sets the standard of excellence
for lexicography in this country. Here is the most
accurate and richly descriptive picture of American
English ever offered in any dictionary. Oxford's
American editors drew on our 200-million-word
databank of contemporary North American English,
plus the unrivaled citation files of the world-
renowned Oxford English Dictionary. We started
with American evidence--an unparalleled resource
unique to Oxford. Our staff logged more than 50
editor-years, checking every entry and every
definition. Oxford's ongoing North American
Reading Program, begun in the early 1980s, keeps
our lexicographers in touch with fresh evidence of
our language and usage--in novels and newspapers,
in public records and magazines, and on-line, too. To
provide unprecedented clarity, the entries are
organized around core meanings, reflecting the way
people think about words and eliminating the clutter
and confusion of a traditional dictionary entry. Each
entry plainly shows the major meaning or meanings
of the word, plus any related senses, arranged in
intuitive constellations of connected meanings.
Definitions are supplemented by illustrative, in-
context examples of actual usage. This major new
edition of The New Oxford American Dictionary
includes a guide to the pronunciations on every
page, a new etymology essay by Anatoly Liberman,
completely updated and revised maps, and more
than a thousand new entries, covering everything
new in our language from low-carb to warblog and
beyond. The New Oxford American Dictionary is
designed to serve the user clearly, simply, and
quickly, with the precise guidance you expect from
Oxford University Press. With in-depth and up-to-
date coverage that all users need and expect--for
reading and study, for technical terms, for language
guidance--it continues the tradition of scholarship
and lexicographic excellence that are the hallmarks of
every Oxford dictionary. Web Site A companion web
site is now available at www.oup.com/us/noad.
**Collins COBUILD Advanced Learner's
Dictionary** GRIN Verlag
Providing comprehensive coverage of computer
applications in industry, school, work,
education, and the home, this fully revised
dictionary is the ideal reference for students,
professionals, and anyone who uses computers.
A Dictionary of Computer Science OUP Oxford
