Geog.3 Workbook OUP Oxford

There has been a major revival of interest in State Capitalism: What it is, where it is found, and why it is seemingly becoming more ubiquitous. As a concept, it has evolved from radical critiques of the Soviet Union, to being deployed by neo-liberals to describe market reforms deemed imperfect, to settle into a middle ground, as a

pragmatic way to describe the state assuming a role as an active economic agent, in addition to its regulatory, social, and security functions. The latter is the central focus of this book, although due attention is accorded to the origins of state capitalism and how it has changed over the years, as well as contemporary ways in which state capitalism may be theorized. This economic agency may assume direct forms, for example, via state owned enterprises. However, it may also be indirect, for example, actively serving private interests through promoting insider firms, who may occupy monopolistic market positions and perform outsourced state functions. In turn, this leads to raise salient governance questions. The latter may encompass agency tensions between public ownership, and political or even private interest control; it may also include issues of transparency and monitoring. Although state capitalism has often been depicted as the preserve of states in the global south, be they developmental or predatory, many forms of state capitalism are visible in mature economies, be they liberal or coordinated, and this is not always

associated with superior governance arrangements; indeed, this is an area where clear and easy divisions between the "developing" or "emerging" world and the "developed" or "mature" world may increasingly be breaking down. This volume brings together the accounts of leading experts from around the world; it is explicitly multi-disciplinary, and both consolidates the exiting knowledge base, and provides new, novel, and counter-intuitive insights.

Oxford Picture Dictionary Oxford University Press

**APOLOGUE** A young painter, indulging a vein of pleasantries, sketched a kind of conversation piece, representing a bear, an owl, a monkey, and an ass; and to render it more striking, humorous, and moral, distinguished every figure by some emblem of human life. Bruin was exhibited in the garb and attitude of an old, toothless, drunken soldier; the owl perched upon the handle of a coffee-pot, with spectacle on nose, seemed to contemplate a newspaper; and the ass, ornamented with a huge tie-wig (which, however, could not conceal his long ears), sat for his picture to the monkey, who appeared with the implements of painting. This whimsical group afforded some mirth, and met with general approbation, until some mischievous wag hinted that the whole—was a lampoon upon the friends of the performer; an insinuation which was no sooner circulated than those very people who applauded it before began to be alarmed, and even to fancy themselves signified by the several figures of the piece.

Among others, a worthy personage in years, who had served in the army with reputation, being incensed at the supposed outrage, repaired to the lodging of the painter, and finding him at home, "Hark ye, Mr. Monkey," said he, "I have a good mind to convince you, that though the bear has lost his teeth, he retains his paws, and that he is not so drunk but he can perceive your impertinence." "Sblood! sir, that toothless jaw is a damned scandalous libel—but don't you imagine me so chopfallen as not to be able to chew the cud of resentment." Here he was interrupted by the arrival of a learned physician, who, advancing to the culprit with fury in his aspect, exclaimed, "Suppose the augmentation of the ass's ears should prove the diminution of the baboon's—nay, seek not to prevaricate, for, by the beard of Aesculapius! there is not one hair in this periwig that will not stand up in judgment to convict thee of personal abuse. Do but observe, captain, how this pitiful little fellow has copied the very curls—the colour, indeed, is different, but then the form and foretop are quite similar." While he thus remonstrated in a strain of vociferation, a venerable senator entered,

and waddling up to the delinquent, "Jackanapes!" cried he, "I will now let thee see I can read something else than a newspaper, and that without the help of spectacles: here is your own note of hand, sirrah, for money, which if I had not advanced, you yourself would have resembled an owl, in not daring to show your face by day, you ungrateful slanderous knave!"

The OPD Second Canadian Edition English/Chinese is an illustrated, theme-based dictionary for second-language learners. This four-colour dictionary defines words through pictures, and presents each new word in context. The OPD English/Chinese, along with the monolingual workbooks and many other

components, can be used as a reference book or as text for high school or adult ESL students at the beginner level. For years, the first monolingual Canadian edition of the OPD has been the industry leader among picture dictionaries. The second edition expands on the topics covered, providing more depth of vocabulary in the areas that matter most to students and offers Chinese speakers the additional advantage of having words and phrases defined in their native language. The illustrations have been completely updated in a more realistic style that is visually appealing to adult learners. The second edition also contains two new features: Introductory Pages and Story Pages. The Introductory Pages have been added to the beginning of each theme to give lower-level students a basic overview of key vocabulary words, and to give a starting point for discussion and an introduction to the theme for more advanced students. The Story Pages consist of a two-page spread at the end of each theme to help students use the words in context and practise their reading skills. The OPD English/Chinese is designed for use both in and out of the classroom. Speaking

exercises are presented throughout the OPD to allow students to practise new vocabulary in pairs or small groups, while the pronunciation guide in the index allows students to check their pronunciation when they are studying on their own.
