Using an inquiry-based approach to learning, Oxford Discover develops the communication skills and thinking skills students need for success in the 21st century. Who are your family and friends?

Where can we see colors? How can we make music? Oxford Discover uses Big Questions such as these to tap into students' natural curiosity. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. Oxford Discover gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Use with Show and Tell as part of 9-level course.

The OPD Second Canadian Edition English/Chinese is an illustrated, theme-based dictionary for second-language learners. This four-colour dictionary defines words through pictures, and presents each new word in context. The OPD English/Chinese, along with the monolingual workbooks and many other components, can be used as a reference book.

or as text for high school or adult ESL students at the beginner level. For years, the first monolingual Canadian edition of the OPD has been the industry leader among picture dictionaries. The second edition expands on the topics covered, providing more depth of vocabulary in the areas that matter most to students and offers Chinese speakers the additional advantage of having words and phrases defined in their native language. The illustrations have been completely updated in a more realistic style that is visually appealing to adult learners. The second edition also contains two new features: Introductory Pages and Story Pages. The Introductory Pages have been added to the beginning of each theme to give lower-level students a basic overview of key vocabulary words, and to give a starting point for discussion and an introduction to the theme for more advanced students. The Story Pages consist of a two-page spread at the end of each theme to help students use the words in context and practise their reading skills. The OPD English/Chinese is designed for use both in and out of the classroom. Speaking exercises are presented throughout the OPD to allow students to practise new vocabulary in pairs or small groups, while the pronunciation guide in the index allows students to check their pronunciation when they are studying on their

own.

The Oxford Handbook of State Capitalism and the Firm Oxford University Press

There has been a major revival of interest in State Capitalism: What it is, where it is found, and why it is seemingly becoming more ubiquitous. As a concept, it has evolved from radical critiques of the Soviet Union, to being deployed by neo-liberals to describe market reforms deemed

imperfect, to settle into a middle ground, as a pragmatic way to describe the state assuming a role as an active economic agent, in addition to its regulatory, social, and security functions. The latter is the central focus of this book, although due attention is accorded to the origins of state capitalism and how it has changed over the years, as well as contemporary ways in which state capitalism may be theorized. This economic agency may assume direct forms, for example, via state owned enterprises. However, it may also be indirect, for example, actively serving private interests through promoting insider firms, who may occupy monopolistic market positions and perform outsourced state functions. In turn, this leads to raise salient governance questions. The latter may encompass agency tensions between public ownership, and political or even private interest control; it may also include issues of transparency and monitoring. Although state capitalism has often been depicted as the preserve of states in the global south, be they developmental or predatory, many forms of state capitalism are visible in mature economies, be they liberal or coordinated, and this is not always associated with superior governance arrangements; indeed, this is an area where clear and easy divisions between the "developing" or "emerging" world and the "developed" or "mature" world may increasingly be breaking down. This volume brings together the accounts of leading experts from around the world; it is explicitly multi-disciplinary, and both consolidates the exiting knowledge base, and provides new, novel, and

counter-intuitive insights.

**The Oxford English Dictionary** OUP Oxford

Referred to as the "Grand Prix of epidemiology" by The New York Times, this study examines more than 350 variables of health and nutrition with surveys from 6,500 adults in more than 2,500 counties across China and Taiwan, and conclusively demonstrates the link between nutrition and heart disease, diabetes, and cancer. While revealing that proper nutrition can have a dramatic effect on reducing and reversing these ailments as well as curbing obesity, this text calls into question the practices of many of the current dietary programs, such as the Atkins diet, that are widely popular in the West. The politics of nutrition and the impact of special interest groups in the creation and dissemination of public information are also discussed.

grammar with the flexibility to allow students to make their own discoveries. Language is presented in stimulating, realistic contexts. A high profile is given to skills development from the start of the course. Cross-curricular project work encourages students to communicate in English about their own lives and experiences. The strong cultural element helps students to establish a connection between language and life. Students are encouraged to learn about life in Britain and other English-speaking countries, as well as to explore differences and draw comparisons with their own cultures. Strong emphasis is placed on learner independence: students are encouraged to think about their own learning and reflect on their progress. The course is enriched by numerous songs, games, and puzzles which make language learning fun. The fifth level, Project Plus, is a revision level with the emphasis on skills extension, in particular reading and speaking.
