This book revisits second language (L2) writing teacher education by exploring the complex layers of L2 writing instruction in non-English dominant contexts (i.e. English as a foreign language contexts). It pushes the boundaries of teacher education by specifically examining the development of teacher literacy in writing in under-represented L2 writing contexts, and re-envisioning L2 writing teacher education that is contextually and culturally situated, moving away from the uncritical embracement of Western-based writing pedagogies. It explores and expands on writing teacher education – how language teachers come to understand their own writing practices and instruction, and what their related experiences are in non-English dominant contexts across the globe.
