Godsmack's founder and front man Sully Erna has been immersed in the world of rock ever since he got his first drum set. Given his achievements, that early start might suggest that his career was a straight shot to the top. The truth is, Erna took so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In *The Paths We Choose*, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. He's made the most of every advantage and obstacle he has faced, and reminds us that we can, too. For Sully, success is not an ultimate destination. Every day brings a new fork in the road, another path to choose

Oral History and Photography McGraw Hill Professional

This essay collection explores the "photographic turn" in oral history. Contributors ask how oral historians can best use photographs in their interviewing practice and how they can best understand photographs in their interpretation of oral histories. The authors present a dozen case studies from Australia, Brazil, Canada, Germany, the United Kingdom, and the United States. In exploring the intersection of oral history and photography, they complicate and move beyond the use of photographs as social documents and memory triggers and demonstrate how photographs frame oral narratives and how stories unsettle the seeming fixity of photographs' meanings.

As most of you are aware, the road to a successful career in Software starts with a series of Written Technical Tests conducted by most IT companies in India. These companies test you fundamental skills in programming and design in three major areas- C Programming, Data Structures and C++ Programming. Most of you may have prepared for that "dream test" without knowing the exact pattern, the level and the difficulty of questions that appear in such tests. As a result, you are not able to give your best performance in these tests. This "Interview Questions" series addresses these concerns and is aimed at giving you the necessary practice and confidence to help you crack these tests. This series presents a whole gamut on questions on different topics in each of these three subjects- C, DS and C++. This volume is dedicated to topics like :
