What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." —Jonathan Yardley, *The Washington Post Book World*

For many, the moon landing was the defining event of the twentieth century. So it seems only fitting that Norman Mailer—the literary provocateur who altered the landscape of American nonfiction—wrote the most wide-ranging, far-seeing chronicle of the Apollo 11 mission. A classic chronicle of America's reach for greatness in the midst of the Cold War, *Of a Fire on the Moon* compiles the reportage Mailer published between 1969 and 1970 in *Life* magazine: gripping firsthand dispatches from inside NASA's clandestine operations in Houston and Cape Kennedy; technical insights into the magnitude of their awe-inspiring feat; and prescient meditations that place the event in human context as only Mailer could. Praise for *Of a Fire on the Moon* "The gift of a genius . . . a twentieth-century American epic—a Moby Dick of space." —New York "Mailer's account of Apollo 11 stands as a stunning image of human energy and purposefulness. . . . It is an act of revelation—the only verbal deed to be worthy of the dream and the reality it celebrates." —Saturday Review "A wild and dazzling book." —The New York Times Book Review "Still the most challenging and stimulating account of [the] mission to appear in print." —The Washington Post Praise for Norman Mailer "[Norman Mailer] loomed over American letters longer and larger than any other writer of his generation." —The New York Times "A writer of the greatest and most reckless talent." —The New Yorker "Mailer is indispensable, an American treasure." —The Washington Post "A devastatingly alive and original creative mind." —Life "Mailer is fierce, courageous, and reckless and nearly everything he writes has sections of headlong brilliance." —The New York Review of Books "The largest mind and imagination [in modern] American literature. . . . Unlike just about every American writer since Henry James, Mailer has managed to grow and become richer in wisdom with each new book." —Chicago Tribune "Mailer is a master of his craft. His language carries you through the story like a leaf on a stream." —The Cincinnati Post

Handbook of Research on Advancing Critical Thinking in Higher Education Prentice Hall

CRITICAL THINKING, THOUGHTFUL WRITING begins with the premise that thinking well involves using language well, and vice versa. This rhetoric with readings--written by critical-thinking scholar John Chaffee and English professors Christine McMahon and Barbara Stout--provides thorough coverage of the writing process, going beyond the traditional rhetoric to teach students how to evaluate sources, images, and arguments. Each chapter focuses on a critical-thinking skill--such as problem solving or analysis of complex issues--that is explored through "Thinking-Writing Activities" and thematically linked readings. The text helps students develop these skills through carefully sequenced pedagogy and a cross-disciplinary approach that asks them to complete writing assignments and critically evaluate readings drawn from a variety of disciplines. The Fifth Edition offers new readings, a new "Thinking Critically About New Media" feature in each chapter, and more photos, which emphasize visual rhetoric.

Peter Kreeft invites seekers to accompany Socrates on the search for truth. With sharp questions and canny wit he will coach you past the winsome, the wily and the half-wise spin-doctors of error who populate the ancient byways. In classic Kreeftian style, this narrative entertains even as it provides a convincing apologetic.

Philosopher's Way: Thinking Critically about Profound Ideas Value Package (Includes Common Philosophical Terms) Wipf and Stock Publishers

The importance of critical thinking has surged as academics in higher education realize that many students, upon entering college, lack the critical

thinking skills necessary to succeed. While much has been written regarding the 'lack' of critical thinking, less has been written on the success of methods implemented to develop this fundamental skill. The Handbook of Research on Advancing Critical Thinking in Higher Education explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies. Due to the difficulties associated with teaching critical thinking skills to learners of any age, this publication is a crucial addition to the scholarly reference works available to pre-service and early career teachers, seasoned educational professionals, professors across disciplines, curriculum specialists, and educational administrators. The Philosopher's Way Houghton Mifflin Harcourt Philosophy is the quest for a life that is fully alive. Drawing on the insights of philosophers through the ages, The Way of Philosophy clarifies what it means to live life intensely. It exposes the shallowness of conventional wisdom by asking such questions as -Can science know everything? -Should we do it if it feels good? -Is beauty in the eye of the beholder? -Is life about creating ourselves? -Is love supposed to be selfless? -Can we ignore death? -If God exists, why is he hiding? Philosophers invite us to go down deep and live a life in light of truth, goodness, and beauty. If we tread this path, we can discover for ourselves the hidden source of the philosophical life in the unending wellspring of wonder.
