## The Theory of Moral Sentiments Hackett Publishing

For more than thirty years, *The Universe Next Door* has set the standard for a clear, readable introduction to worldviews. In this new fifth edition James Sire offers additional student-friendly features to his concise, easily understood introductions to theism, deism, naturalism, Marxism, nihilism, existentialism, Eastern monism, New Age philosophy and postmodernism. Included in this expanded format are a new chapter on Islam and informative sidebars throughout. The book continues to build on Sire's refined definition of worldviews from the fourth edition and includes other updates as well, keeping this standard text fresh and useful. In a world of ever-increasing diversity, *The Universe Next Door* offers a unique resource for understanding the variety of worldviews that compete with Christianity for the allegiance of minds and hearts. *The Universe Next Door* has been translated into over a dozen

languages and has been used as a text at over one hundred colleges and universities in courses ranging from apologetics and world religions to history and English literature. *Sire's Naming the Elephant: Worldview as a Concept* provides a useful companion volume for those desiring a more in-depth discussion of the nature of a worldview. *Introduction to Philosophy* Pearson College Division

*Nicomachean Ethics* Aristotle - The *Nicomachean Ethics* is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate

---

knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the *Ethics* that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's *Ethics* in his political philosophy as a whole. The *Nicomachean Ethics* has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval,

and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation. *Core Questions in Philosophy* McGraw-Hill College

What makes for a philosophical classic? Why do some philosophical works persist over time, while others do not? The philosophical canon and diversity are topics of major debate today. This stimulating volume contains ten new essays by accomplished philosophers writing passionately about works in the history of philosophy that they feel were unjustly neglected or ignored—and why they deserve greater attention. The essays cover lesser known works by famous thinkers as well as works that were once famous but now only faintly remembered. Works examined include

---

Gorgias' Encomium of Helen, Jane Adams' Women and Public Housekeeping, W.E.B. DuBois' Whither Now and Why, Edith Stein's On the Problem of Empathy, Jonathan Bennett's Rationality, and more. While each chapter is an expression of engagement with an individual work, the volume as a whole, and Eric Schliesser's introduction specifically, address timely questions about the nature of philosophy, disciplinary contours, and the vagaries of canon formation.

**Plato** Pearson College Division  
Despite being a major theorist of post-war Marxism in the German-speaking world, Leo Kofler remains largely unknown outside of it. This volume introduces his work and life and presents six of Kofler's essays in English for the first time.

**Evil in Modern Thought** Yale University Press

First published in 1961, Forrest E. Baird's revision of Philosophic Classics continues the tradition of providing generations of students with high quality course material. Using the complete works, or where appropriate, complete sections of works, this anthology allows philosophers to speak directly to students. Esteemed for providing the best available translations, Philosophic Classics: From Plato to Derrida, features complete works or complete sections of the most important works by the major thinkers, as well as shorter samples from transitional thinkers.

**Classics of Moral and Political Theory**

Oxford University Press, USA

In this accessible introduction to philosophy, Cahn brings together clear recent essays by noted philosophers & supplements them with

---

influential historical sources. The articles are understandable to every reader. Topics are drawn from the major fields of philosophy & include: knowledge & skepticism, freedom & determinism, mind & body, the existence of God, the problem of evil, faith & reason, cultural relativism, abortion, euthanasia, democracy, privacy, capital punishment, affirmative action, death, & the meaning of life. The collection also contains, in translation, the complete texts of Plato's Meno, Euthyphro, Defence of Socrates, & Crito as well as specially selected materials by Aristotle, Aquinas, Descartes, Hume, Kant, & Mill.

### **Readings in Ancient Greek Philosophy**

Academic Resources Corp

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged

with the bound book. Thematically introduces students to the major philosophic thinkers. Fundamentals of Philosophy offers a broad scope of classic and contemporary selections from the world's major thinkers via a narrative format that presents difficult issues and readings in a simplified manner for students. Its readings are grouped around nine major themes/chapters, and are organized as a debate on one central issue. This approach helps students understand the argumentative style of philosophy, and learn how philosophic issues and solutions they encounter can be applied to their everyday life. A better teaching and learning experience This program will provide a better teaching and learning experience—for you and your students. Here's how: Personalize Learning - MySearchLab delivers proven results in helping students succeed, provides engaging

**Philosophy of Religion** Nicholas Brealey  
First published in 1961, Forrest E. Baird's revision of *Philosophic Classics* continues the tradition of providing generations of students with high quality course material. Using the complete works, or where appropriate, complete sections of works, this anthology allows philosophers to speak directly to students. Esteemed for providing the best available translations, *Philosophic Classics: From Plato to Derrida*, features complete works or complete sections of the most important works by the major thinkers, as well as shorter samples from transitional thinkers.

*Socrates to Sartre* Courier Corporation

---

Soon after its publication, *Readings in Ancient Greek Philosophy* was hailed as the favorite to become the 'standard' text for survey courses in ancient philosophy. Nothing on the market touches it for comprehensiveness, accuracy, and readability.\* (\*APA Newsletter on Teaching Philosophy). Fifteen years on, that prediction has been borne out, and the volume's preeminence as the leading anthology for the teaching of ancient philosophy still stands. The Fourth Edition features a completely revamped and expanded unit on the Presocratics and Sophists that draws on the wealth of new scholarship published on these fascinating thinkers over the past decade or more. At the core of this unit, as ever, are the fragments themselves--but now in thoroughly revised and, in some cases, new translations by Richard McKirahan and Patricia Curd, among them

those of the recently published *Derveni Papyrus*. Princeton University Press

*Introduction to Philosophy: Classical and Contemporary Readings*, Fifth Edition, is the most comprehensive topically organized collection of classical and contemporary philosophy available. Ideal for introductory philosophy courses, the text includes sections on God and evil, knowledge and reality, the philosophy of science, the mind/body problem, freedom of will, consciousness, ethics, political philosophy, existential issues, and philosophical puzzles and paradoxes. Insightful introductions to each part, study questions after each reading selection, and an extensive glossary of philosophical terms help make the readings more accessible to students. Revised and updated to make it more pedagogical, the fifth edition incorporates boldfaced key terms (listed after each reading and defined in the glossary); a guide to writing philosophy papers; and a "Logical Toolkit," which lists and explains common terminology used

---

in philosophical reasoning. This edition also features five new readings and a separate section on existential issues. In addition, the book is accompanied by supplementary materials that enhance its utility. An updated Instructor's Manual and Testbank on CD contains sample syllabi, sample exam questions, summaries of each reading, and additional pedagogical tools. A Companion Website at [www.oup.com/us/perry](http://www.oup.com/us/perry) features the same material included in the Instructor's Manual and Testbank. It also links to a separate site for students, which offers multiple-choice self-quizzes; pedagogical material; and an interactive blog featuring recommended websites, news articles, helpful anecdotes, and interviews.

What do we know about ordinary people in our towns and cities, about what really matters to them

and how they organize their lives today? This book visits an ordinary street and looks into thirty households. It reveals the aspirations and frustrations, the tragedies and accomplishments that are played out behind the doors. It focuses on the things that matter to these people, which quite often turn out to be material things – their house, the dog, their music, the Christmas decorations. These are the means by which they express who they have become, and relationships to objects turn out to be central to their relationships with other people – children, lovers, brothers and friends. If this is a typical street in a modern city like London, then what kind of society is this? It's not a community, nor a neighbourhood, nor is it a collection of isolated individuals. It isn't dominated by the family. We assume that social life is corrupted by materialism, made superficial and individualistic by a surfeit of consumer goods, but this is misleading. If the street isn't any of these things, then what is it? This brilliant and revealing portrayal of a street

---

in modern London, written by one the most prominent anthropologists, shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming. It reveals the forms by which ordinary people make sense of their lives, and the ways in which objects become our companions in the daily struggle to make life meaningful.

**From Socrates to Sartre BRILL**

The fifth edition of Michael L. Morgan's *Classics of Moral and Political Theory* broadens the scope and increases the versatility of this landmark anthology by offering new selections from Aristotle's *Politics*, Aquinas' *Disputed Questions on Virtue* and *Treatise on Law*, as well as the entirety of Locke's *Letter Concerning Toleration*, Kant's *To Perpetual Peace*, and Nietzsche's *On the Advantage and Disadvantage of History for Life*.

**Philosophic Classics, Volume III** Pearson College Division

Whether expressed in theological or secular terms, evil poses a problem about the world's intelligibility. It confronts philosophy with fundamental questions: Can there be meaning in a world where innocents suffer? Can belief in divine power or human progress survive a cataloging of evil? Is evil profound or banal? Neiman argues that these questions impelled modern philosophy. Traditional philosophers from Leibniz to Hegel sought to defend the Creator of a world containing evil. Inevitably, their efforts--combined with those of more literary figures like Pope, Voltaire, and the Marquis de Sade--eroded belief in God's benevolence, power, and relevance, until Nietzsche claimed He had been murdered. They also yielded the distinction between

---

natural and moral evil that we now take for granted. Neiman turns to consider philosophy's response to the Holocaust as a final moral evil, concluding that two basic stances run through modern thought. One, from Rousseau to Arendt, insists that morality demands we make evil intelligible. The other, from Voltaire to Adorno, insists that morality demands that we don't.

**Philosophic Classics: Ancient philosophy**  
Routledge

This book illustrates the basics of GPU programming in geosciences. It details general background, possibilities and basic coding procedures. It features ready-to-use examples of CUDA Fortran subroutines.

*Philosophic Classics: Asian Philosophy,*  
Volume VI Phoemixx Classics Ebooks

The Turner Lectures delivered in Trinity College November 1919.

**Ten Neglected Classics of Philosophy**  
Ancient Philosophy

A challenging new look at the great thinkers whose ideas have shaped our civilization. From Socrates to Sartre presents a rousing and readable introduction to the lives, and times of the great philosophers. This thought-provoking book takes us from the inception of Western society in Plato's Athens to today when the commanding power of Marxism has captured one third of the world. T. Z. Lavine, Elton Professor of Philosophy at George Washington University, makes philosophy come alive with astonishing clarity to give us a deeper, more meaningful understanding of

---

ourselves and our times. From Socrates to Sartre discusses Western philosophers in terms of the historical and intellectual environment which influenced them, and it connects their lasting ideas to the public and private choices we face in America today. From Socrates to Sartre formed the basis of from the PBS television series of the same name.

*The Perennial Philosophy* Columbia University Press

Few philosophers are as widely read or as widely misunderstood as Friedrich Nietzsche. When Danto's classic study was first published in 1965, many regarded Nietzsche as a brilliant but somewhat erratic thinker. Danto, however, presented a radically different picture, arguing that

Nietzsche offered a systematic and coherent philosophy that anticipated many of the questions that define contemporary philosophy. Danto's clear and insightful commentaries helped canonize Nietzsche as a philosopher and continue to illuminate subtleties in Nietzsche's work as well as his immense contributions to the philosophies of science, language, and logic. This new edition, which includes five additional essays, not only further enhances our understanding of Nietzsche's philosophy; it responds to the misunderstandings that continue to muddy his intellectual reputation. Even today, Nietzsche is seen as everything from a precursor of feminism and deconstruction to a prophetic writer and spokesperson for disgruntled teenage boys.

---

As Danto points out in his preface, Nietzsche's writings have purportedly inspired recent acts of violence and school shootings. Danto counters these misreadings by elaborating an anti-Nietzschian philosophy from within Nietzsche's own philosophy "in the hope of disarming the rabid Nietzsche and neutralizing the vivid frightening images that have inspired sociopaths for over a century." The essays also consider specific works by Nietzsche, including *Human, All Too Human* and *The Genealogy of Morals*, as well as the philosopher's artistic metaphysics and semantical nihilism.

The Comfort of Things Harper Collins

Accessible to today's readers, this anthology of readings is a survey of Asian thought in India and

China. It strikes a balance between major and minor figures, and features the best available translations of texts complete works or complete sections of works which are both central to each thinker or school and are widely accepted to be part of the emerging Asian canon. Introductions to each historical period and to each thinker, photographs, and a timeline help to keep learners focused throughout. For individuals interested in learning about World Religions, Asian thought, or Chinese and Indian philosophy.
