The cat--that most graceful, stubborn, and agile of animals--has been a favorite subject of artists the world over from prehistory to the modern day. A spectacular 7,000-year-old engraving in Libya depicts a catfight. Figures modeled by the Babylonians remind us of their belief that the souls of priests were escorted to paradise by a helpful cat. Pablo Picasso was known to have loved cats and famously portrayed them as savage predators. In Victorian times, cats were depicted in loving family groups with mothers caring for their playful kittens. Today, the cat is one of the most popular domestic pets on the planet, and feline art is a hugely popular theme across the world. In his latest eye-catching book, best-selling author Desmond Morris tells the compelling story of cats in art. He explores feline art in its many forms, tracing its history from ancient rock paintings and spectacular Egyptian art to the work of old masters, avant-garde representations, and the depiction of cats in cartoons. Morris discusses the various ways in which artists have approached the subject throughout history, weaving illuminating stories with rarely seen images. The result is a beautifully illustrated book that will delight anyone with a Kitty, Max, or Tigger in their life.

L'Arte Dei Bambini Genius
In 1946, when Picasso received the offer to use one of the great rooms in the castle at Antibes as a studio, he exclaimed enthusiastically: "I'm not only going to paint, I'll decorate the museum too." The result was a series of paintings and drawings that reflected the jubilant spirit, the joie de vivre, of a country that was free once more. Picasso later added sculptures, graphic works, and ceramics to this collection, forming the basis for what would be France's first museum dedicated to him, inaugurated in 1966 as Muse Picasso, Antibes. This catalog, published in conjunction with the exhibition of Palazzo Grassi, comprises a great selection of the most outstanding works from the Muse Picasso of Antibes, a large number of which have never been shown beyond the

museum's walls. These include the murals La Joie de Vivre, 1946, The Sea Urchin Eater, 1946, and the impressive sculpture Head of Woman with Chignon, 1932. Featuring paintings, drawings, sculptures, and ceramics, the works illustrate a splendid period in Picasso's artistic career. The volume also includes a selection of photographs of Picasso by Polish artist Michel Sima, which portray the context in which Picasso created the works.

La exposición presenta un conjunto de obras heterogéneo y complejo, que parte de movimientos históricos, como el futurismo, el dadaísmo, el surrealismo, la Bauhaus, Fluxus y el nuevo realismo, y desemboca en los juegos de vídeo del tercer milenio. Este enfoque heterodoxo del arte del siglo XX pretende mostrar el juego como instrumento que ha permitido romper las reglas de la estética dominante y desarrollar un nuevo recorrido visual y perceptivo, como un asunto serio que representa una de las directrices del arte, a menudo enmascarada por interpretaciones más intelectuales y abstractas.

What does Alvar Aaltos 1 Paimio have in common with a Doberman Pinscher, Le Corbusiers LC4 with a Spanish Greyhound, or Philippe Starcks Costes Chair with a Fox Terrier? Not a lot, you may think. But look again and you might notice shared traits in form, colour, personality, stature and style. Author and illustrator Cristina Amodeo draws parallels between nearly twenty-five dogs and designer chairs in this fun and stylish book that matches iconic chairs with their corresponding breed of dog. Who knows if Arne Jacobsen had a Welsh Corgi in mind when he designed his Grand Prix Chair? Or whether a Scottish Deerhound ever entered Ron Arads head while designing his Victoria and Albert Sofa? Who cares, when dogs and chairs make such elegant designer pairs.

Manifestoes of Surrealism Genius

Marina Picasso remembers being six years old and standing awkwardly in front of the gates of Picasso's grand house near Cannes. She was there with her father and eight-year-old brother to collect from her grandfather the weekly allowance that Picasso grudgingly gave his eldest son to support his family. Sometimes they were sent away and on other occasions, the gates would be opened and they would walk into the intimidating, exciting chaos of Picasso's studio to face the man himself and his unpredictable moods. Looking back, Marina can understand why Picasso had so little interest in his grandchildren; but at the time, she and her brother longed for him to love and understand them. Just a few miles away down the Côte d'Azur, they led a hand-to-mouth existence. Her father was a weak man, reliant on his father for everything and her mother lived in her own fantasy world; the family were therefore utterly dependent on Picasso. People assumed they were rich and privileged because they were Picassos and they were to live their lives under the burden of these assumptions. It was this that caused Marina's brother to commit suicide and when her father died Marina found herself in the ironic position of being one of the major heirs to Picasso's estate.

In a series of hilarious parodies, Sylvain Coissard and Alexis Lemoine answer the nagging questions of art history: what caused The Scream? Why is Van Gogh's Yellow Bedroom so suspiciously tidy? Why is Cezanne wearing a bandage in his famous self-portrait? This book is for anyone who wants to know what happened before the Mona Lisa smiled. Or, rather, what might have happened.

"The current exhibition had its genesis in casual conversation several years ago with Ernst Beyeler of Basel, Switzerland, and his American liaison, Kurt Delbanco. The proposal was advanced that Beyeler might be willing to lend a selection of works for exhibition in the United States. Originally some two dozen paintings by Picasso were selected by the museums, but this past summer, as enthusiasm for the exhibition mounted, the number of works increased dramatically. Braque and Léger were added both to complement and contrast with the works by Picasso, and several private Swiss collectors were persuaded to lend works to help fill in certain gaps. The final result was a selection of eighty-three works that well represented the diverse careers of Picasso, Braque and Léger." -- Foreword.
