Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. *Twelve Years a Slave* is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's *Uncle Tom's Cabin*, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century

after the end of the American Civil War.

Now a SHOWTIME® original series starring Emmy winners Joseph Gordon-Levitt and Kyle Chandler and Academy Award nominee Uma Thurman. Now streaming – Only on SHOWTIME. Named one of the best books of the year by NPR, Fortune, Bloomberg, Sunday Times A New York Times Book Review Editor's Choice "If you want to understand modern-day Silicon Valley, you need to read this book." —John Carreyrou, New York Times best-selling author of Bad Blood Hailed as the definitive book on Uber and Silicon Valley, Super Pumped is an epic story

of ambition and deception, obscene wealth, and bad behavior that explores how blistering technological and financial innovation culminated in one of the most catastrophic twelve-month periods in American corporate history. Backed by billions in venture capital dollars and led by a brash and ambitious founder, Uber promised to revolutionize the way we move people and goods through the world. What followed would become a corporate cautionary tale about the perils of startup culture and a vivid example of how blind worship of startup founders can go wildly wrong.

This book has stood the test of time. Copies of the first edition have over the years regularly sold for many times the cover price. The full color book is once more in print. Since its original publication it has been cited in many academic papers and has since become the definitive work on the subject. It caused embarrassment to the huge American coin machine industry when it was first published in 1988- they were busy celebrating the centenary of the Juke Box in that year as an American invention whereas the book revealed that it was actually an earlier British invention. It awoke huge interest in Japan by giving them long sought answers as to the origins of the Pachinko machine (which at the time was consuming as much as a quarter of the gross domestic product in Japan). As a direct result of the book a new museum was established in the Japanese city of Kobe and for a short while the author became a national celebrity there. The book established many new facts and destroyed many of the myths that had arisen in the gaming industry during the 20th century. Originally an ancient Greek invention, the advent of the coin machine in the 19th century heralded a Victorian revolution which sought to establish a fully automated society. The visionaries of the past are the direct forbears of the all pervasive computer industries -without the gaming and coin machine industries it is doubtful as to whether today's computer dominated age would have ever happened. Most important of all, it is fun to read!

The English Teacher's Companion Tuttle Publishing

An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard

Award-nominated writer of the Catapult column "Store-Bought Is Fine"

Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. Pachinko, a game played by over 30 million Japanese, is synonymous with glaring lights, mind-rattling noise and smoke-choked parlors. To the uninitiated, the game's phenomenal popularity is nothing less than an enigma. The unofficial truth is that pachinko is one of Japan's biggest forms of gambling. For non-Japanese, the hush surrounding this money-making aspect has contributed to misunderstandings about the game. Now, with *Winning Pachinko* Eric Sedensky opens parlor doors to the English-speaking world and guides readers through the essentials of play - where to buy balls, how to select a machine, and most importantly, how and where to claim one's booty of cool cash. A glossary of pachinko terms, useful diagrams, and photographs accompany the text.

"Unlike a drop of water which loses its identity when it joins the ocean, man does not lose his being in the society in which he lives. Man's life is independent. He is born not for the development of the society alone, but for the development of his self."-B.R. Ambedkar Born in 1891 into an Untouchable family, Dr Bhimrao Ambedkar is the man behind the Indian Constitution and the champion of the Dalit cause. Much ahead of his times, he raised pertinent issues pertaining to the broader cause of nation-building process for India. This is a collection of extracts from some of his finest works that capture him as a modernist thinker with an outstanding intellectual sweep over the major aspects of a then newly independent nation. These writings cover a wide range of issues such as the caste system, Untouchability, Hinduism, status of women, the multiple religions in India, creation of Pakistan, the constitution, and much more. Ambedkar: An Overview is both a handy reference guide and a preamble for those who wish to familiarize themselves with the pioneering works of Babasaheb.

Twelve Years A Slave, Illustrated Edition Simon and Schuster

In Las Vegas, there's a family-owned business called the Gold & Silver Pawn Shop, run by three generations of the Harrison family: Rick; his son, Big Hoss; and Rick's dad, the Old Man. Now *License to Pawn* takes readers behind the scenes of the hit *History* show *Pawn Stars* and shares the fascinating life story of its star, Rick Harrison, and the equally intriguing story behind the shop, the customers, and the items for sale. Rick hasn't had it easy. He was a math whiz at an early age, but developed a similarly uncanny ability to find ever-deepening trouble that nearly ruined his life. With the birth of his son, he sobered up, reconnected with his dad, and they started their booming business together. *License to Pawn* also offers an entertaining walk through the pawn shop's history. It's a captivating look into how the Gold

& Silver works, with incredible stories about the crazy customers and the one-of-a-kind items that the shop sells. Rick isn't only a businessman; he's also a historian and keen observer of human nature. For instance, did you know that pimps wear lots of jewelry for a reason? It's because if they're arrested, jewelry doesn't get confiscated like cash does, and ready money will be available for bail. Or that WWII bomber jackets and Zippo lighters can sell for a freakishly high price in Japan? Have you ever heard that the makers of Ormolu clocks, which Rick sells for as much as \$15,000 apiece, frequently died before forty thanks to the mercury in the paint? Rick also reveals the items he loves so much he'll never sell. The shop has three Olympic bronze medals, a Patriots Super Bowl ring, a Samurai sword from 1490, and an original Iwo Jima battle plan. Each object has an incredible story behind it, of course. Rick shares them all, and so much more--there's an irresistible treasure trove of history behind both the Gold & Silver Pawn Shop and the life of Rick Harrison.

Continuing the tradition of pinball collecting, The Pinball Price Guide, Ninth Edition by Pinballeric(TM) is the ideal reference for anyone--collector, buyer, or seller--trying to determine the current value and fair price of a pinball machine. The Price Guide, which covers the price values of over 2000 collectible games produced for the U.S. market from 1931-2012, is unique in that it breaks down pricing into three classes (1-Best, 2-Good, 3-OK), determined by the condition of a game's backglass, playfield, and cabinet. In addition to pricing averages, the book lists the most collectible games for each era of

machine. In the "Collector's Corner," there are four new articles written by industry experts who discuss collecting specific types of games: Prewar (Flipperless), Bingo-style, Woodrails, and Electro-Mechanical. Besides tips on caring for and maintaining games and a list of resources of interest to pinball enthusiasts, the book provides a useful worksheet to help get organized and understand the actual costs of buying or selling a game-beyond the game itself. Whether you are an established or beginning collector, selling a game found in the basement, or looking for an addition to your home game room, *The Pinball Price Guide* by Pinballer(TM) is an essential resource for buying or selling a pinball machine.

An examination of Khaldun's Islamic history of the premodern world, its philosophical underpinnings, and the author himself. In his masterwork *Muqaddimah*, the Arab Muslim Ibn Khaldun (1332–1406), a Tunisian descendant of Andalusian scholars and officials in Seville, developed a method of evaluating historical evidence that allowed him to identify the underlying causes of events. His methodology was derived from Aristotelian notions of nature and causation, and he applied it to create a dialectical model that explained the cyclical rise and fall of North African dynasties. *The Muqaddimah* represents the world's first example of structural history and historical sociology. Four centuries before the European Enlightenment, this work anticipated modern historiography and social science. In Stephen F. Dale's *The Orange Trees of Marrakesh*, Ibn Khaldun emerges as a cultured urban intellectual and professional religious judge who demanded his fellow Muslim historians abandon their worthless tradition of narrative historiography and instead base their works on a philosophically informed understanding of social organizations. His strikingly modern approach to historical research established him as

the premodern world's preeminent historical scholar. It also demonstrated his membership in an intellectual lineage that begins with Plato, Aristotle, and Galen; continues with the Greco-Muslim philosophers al-Farabi, Avicenna, and Averroes; and is renewed with Montesquieu, Hume, Adam Smith, and Durkheim. Praise for *The Orange Trees of Marrakesh* "Stephen Dale's book contains a careful account of the dizzying ups and downs of Ibn Khaldun's political and academic career at courts in North Africa, Andalusia and Egypt. For these and other reasons *The Orange Trees of Marrakesh* deserves careful and respectful attention." —Robert Irwin, *The Times Literary Supplement* (UK) "Historian Stephen Frederic Dale argues that Ibn Khaldun's work is a key milestone on the road from Greek to Enlightenment thought, chiming with the radical reasoning of philosophers such as Montesquieu and Adam Smith." —Barbara Kiser, *Nature* "Dale's interest in Greco-Islamic philosophy contributes to this biography's uniqueness . . . This work provides indispensable background information to truly appreciate this single most influential Islamic historian." —R. W. Zens, *Choice* "Excellent scholarship on a fascinating subject." —*Publishers Weekly*
