In Las Vegas, there's a family-owned business called the Gold & Silver Pawn Shop, run by three generations of the Harrison family: Rick; his son, Big Hoss; and Rick's dad, the Old Man. Now License to Pawn takes readers behind the scenes of the hit History show Pawn Stars and shares the fascinating life story of its star, Rick Harrison, and the equally intriguing story behind the shop, the customers, and the items for sale. Rick hasn't had it easy. He was a math whiz at an early age, but developed a similarly uncanny ability to find ever-deepening trouble that nearly ruined his life. With the birth of his son, he sobered up, reconnected with his dad, and they started their booming business together. License to Pawn also offers an entertaining walk through the pawn shop's history. It's a captivating look into how the Gold & Silver works, with incredible stories about the crazy customers and the one-of-a-kind items that the shop sells. Rick isn't only a businessman; he's also a historian and keen observer of human nature. For instance, did you know that pimps wear lots of jewelry for a reason? It's because if they're arrested, jewelry doesn't get confiscated like cash does, and ready money will be available for bail. Or that WWII bomber jackets and Zippo lighters can sell for a freakishly high price in Japan? Have you ever heard that the makers of Ormolu clocks, which Rick sells for as much as \$15,000 apiece, frequently died before forty thanks to the mercury in the paint? Rick also reveals the items he loves so much he'll never sell. The shop has three Olympic bronze medals, a Patriots Super Bowl ring, a Samurai sword from 1490, and an original Iwo Jima battle plan. Each object has an incredible story behind it, of course. Rick shares them all, and so much more--there's an irresistible treasure trove of history behind both the Gold & Silver Pawn Shop and the life of Rick Harrison.

101 Awesome Builds Boynton/Cook

A celebration of trusteeship covering every aspect of what it takes to have a happy, healthy, giving board. Boardroom Verities looks at why men and women are willing to join boards and give their time, compassion, and commitment. In 80 brief chapters, time-tested truths are presented covering virtually every aspect of what it takes to have a vital board and effective trustees.

**Productivity Commission Act 1998 (Australia) (2018 Edition)** Harvard University Press

Updated values and text revisions have been made to this popular and thorough guide to Candlewick crystal, one of the most popular lines of glass produced by the Imperial Glass Corporation of Bellaire, Ohio, which was introduced in 1936 and manufactured until the company's closing in 1984. Today this pattern, made in crystal and many lovely colors, attracts avid collectors of fine glassware. In this beautifully photographed and updated book, nearly every item in the crystal line is shown and discussed. The author and her late husband, Bob, carefully researched Imperial's factory records, catalogs, and price lists to assemble extensive background information on these exclusively crystal Candlewick items. Organized in easy-to-use categories, the book covers place settings, serving pieces, sets, and miscellaneous items such as ashtrays, candleholders, compotes, and vases. To further help with identification, some undocumented pieces, reproductions, and similarities are shown as well. Measurements for all of Candlewick's stem and tumbler lines are included. In this new third edition, the primary focus is on updated values that are included in the captions and in an overall price guide organized by mold number. This book is an essential reference for Candlewick collectors and all who enjoy beautiful glass. According to collectors, the photographs are an outstanding feature of the book. A separate companion volume by the authors presents the colored and decorated lines of Candlewick.

You'll get to know all the makers and their machines by name, date, and appearance in this colorful collector's guide. Photos, detailed machine descriptions, manufacturer production data, an interchangeable machine name list and price guide.

Everything Pachislo CSPI

This book shows how in spite of immense hardships and painful ordeals, the mercy and compassion of the Prophet remained to the fore, even towards those who opposed and persecuted him. For Muslims, this book will be a means to celebrate the magnanimous personality of the Prophet (s) and an incentive to instil the great qualities of the Prophet (s) in their own lives, while non-Muslims and academics will discover how these qualities as described in the Islamic literature have caused the Prophet (S) to occupy his preeminent position in the religious consciousness of Muslims.

Slot Machines Audio Amateur Incorporated

"Sharia, an Arabic word meaning "the right path," refers to traditional Islamic law. The Sharia comes from the Koran, the sacred book of Islam, which Muslims consider the actual word of God. The Sharia also stems from the Prophet Muhammad's teachings and interpretations of those teachings by certain Muslim legal scholars. Muslims believe that Allah (God) revealed his true will to Muhammad, who then passed on Allah's commands to humans in the Koran. Since the Sharia originated with Allah, Muslims consider it sacred. Between the seventh century when Muhammad died and the 10th century, many Islamic legal scholars attempted to interpret the Sharia and to adapt it to the expanding Muslim Empire. The classic Sharia of the 10th century represented an important part of Islam's golden age. From that time, the Sharia has continued to be reinterpreted and adapted to changing circumstances and new issues. In the modern era, the influences of Western colonialism generated efforts to codify it."--Definition from Constitutional rights foundation.

Mastering the Art of War Chronicle Books (CA)

Eagerly anticipated, this update of the highly regarded third book from pinball author Michael Shalhoub includes over 900 color photos and covers the most recent period in pinball history, from 1982 through 2011. Each chapter is devoted to a specific year and features descriptions, release dates, and historical background on the games released that year from manufacturers Gottlieb, Williams, Bally, Data East, Stern, Sega, and others. Current values are listed for each machine shown in the book. Interspersed with the games are stories and interviews with many of the legendary designers and artists who created them. Readers will gain fascinating insight into the planning that went into the games, how the designers and artists got their start in the industry, behind-the-scenes tales of life in the pinball world, and more. "Michael Shalhoub's Pinball Compendium is a great documentary of our business," says designer Steve Ritchie of the second book in the trilogy. Along with its two companion volumes (the first covering the 1930s-1960s and the second covering 1970-1981), this book is a must-have for all who love the sights and sounds of the world's great pinball machines.

**Beyond Borders** Taylor Trade Publishing

Teachers and teacher educators asked for: the latest research on literacy more information about national standards ways to consider gender in instruction advice for teaching Advanced Placement classes ideas for teaching media literacy and incorporating technology effectively into instruction even more resources for mentoring new teachers analysis of how trends in society, culture, and politics impact teachers and their classrooms. And Jim delivers. He has revamped his introductory chapters on literacy learning to include up-to-the-minute thinking from the field, and he has incorporated lists of key standards and helpful suggestions for reaching them. His practical strategies turn recent findings on literacy and gender into well-designed, research-based instruction, and his ideas help you meet the very different needs of AP students by understanding their goals and providing them with appropriate challenges.

**Sharia Law for the Non-Muslim** Penguin UK

This multicultural reader for first-year composition courses poses critical questions about American culture and the construction of identity. Beyond Borders includes both conventional writing (essays, poems, and short fiction) and less conventional works (photographs, advertisements, graphic novels, and maps). The thematically arranged readings raise questions and ideas about both individual and group identity. The interactive format shows students how to read and write by freely crossing the borders between writer and reader, student and critic, and consumer and producer. The Second Edition features material on the writing process, with writing activities throughout, and a focus on research and argument. Pinball Price Guide Shambhala Publications

What is modernity? Do we all experience modernity in the same

way? How should we understand contemporary social change? This volume explores questions of modernity through critical engagements with the work of Anthony Giddens, focusing in particular on the relationships between his social theory and political sociology. Three substantive areas - reflexivity, environment and identity - are examined theoretically through the relationships between reflexivity and rationality, life politics and institutional power, and universalism and 'difference'. As well as specifically addressing Giddens' reconstruction of sociology, the contributors also explore a wide variety of critical issues currently occupying centre stage in social theory. These include questions about the character of contemporary societies, the periodisation of social change, the processes of change by which societies are constantly made and remade by people, the relationships between the 'social' and the 'natural', the formation and maintenance of identities and matters of epistemology and methodology in social science. Theorising Modernity will be of interest to undergraduate and postgraduate students of sociology, modern political thought, social geography and social policy and to social scientists trying to make sense of the modernity debate. Martin O'Brien is Research at the University of Derby. Sue Penna is a Lecturer in Applied Social Science at Lancaster University. Colin Hay is a Lecturer in the Department of Political Science and International Studies at the University of Birmingham (UK), a Visiting Fellow of the Department of Political Science at the Massachusetts Institute of Technology (US) and Research Affiliate of the Centre for European Studies at Harvard University (US).

**The Pinball Compendium** Hachette Books

Pachinko, a game played by over 30 million Japanese, is synonymous with glaring lights, mind-rattling noise and smoke-choked parlors. To the uninitiated, the game's phenomenal popularity is nothing less than an enigma. The unofficial truth is that pachinko is one of Japan's biggest forms of gambling. For non-Japanese, the hush surrounding this money-making aspect has contributed to misunderstandings about the game. Now, with Winning Pachinko Eric Sedensky opens parlor doors to the English-speaking world and guides readers through the essentials of play - where to buy balls, how to select a machine, and most importantly, how and where to claim one's booty of cool cash. A glossary of pachinko terms, useful diagrams, and photographs accompany the text.

Photographs depict full-sized jukeboxes, wall boxes, table models, and speakers manufactured by Wurlitzer, Rock-Ola, Seeburg, and other leading jukebox manufacturers from 1937 to 1948.

**American Jukebox** CRC Press

An examination of Khaldun 's Islamic history of the premodern world, its philosophical underpinnings, and the author himself. In his masterwork Muqaddimah, the Arab Muslim Ibn Khaldun (1332 – 1406), a Tunisian descendant of Andalusian scholars and officials in Seville, developed a method of evaluating historical evidence that allowed him to identify the underlying causes of events. His methodology was derived from Aristotelian notions of nature and causation, and he applied it to create a dialectical model that explained the cyclical rise and fall of North African dynasties. The Muqaddimah represents the world 's first example of structural history and historical sociology. Four centuries before the European Enlightenment, this work anticipated modern historiography and social science. In Stephen F. Dale 's The Orange Trees of Marrakesh, Ibn Khaldun emerges as a cultured urban intellectual and professional religious judge who demanded his fellow Muslim historians abandon their worthless tradition of narrative historiography and instead base their works on a philosophically informed understanding of social organizations. His strikingly modern approach to historical research established him as the premodern world 's preeminent historical scholar. It also demonstrated his membership in an intellectual lineage that begins with Plato, Aristotle, and Galen; continues with the Greco-Muslim philosophers al-Farabi, Avicenna, and Averroes; and is renewed with Montesquieu, Hume, Adam Smith, and Durkheim. Praise for The Orange Trees of Marrakesh

---

“ Stephen Dale ’ s book contains a careful account of the dizzying ups and downs of Ibn Khaldun ’ s political and academic career at courts in North Africa, Andalusia and Egypt. For these and other reasons *The Orange Trees of Marrakesh* deserves careful and respectful attention. ” —Robert Irwin, *The Times Literary Supplement* (UK) “ Historian Stephen Frederic Dale argues that Ibn Khaldun ’ s work is a key milestone on the road from Greek to Enlightenment thought, chiming with the radical reasoning of philosophers such as Montesquieu and Adam Smith. ” —Barbara Kiser, *Nature* “ Dale ’ s interest in Greco-Islamic philosophy contributes to this biography ’ s uniqueness . . . This work provides indispensable background information to truly appreciate this single most influential Islamic historian. ” —R. W. Zens, *Choice* “ Excellent scholarship on a fascinating subject. ” —*Publishers Weekly*

*The Orange Trees of Marrakesh* Princeton University Press

Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Sch ü ll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the "machine zone," in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible—even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Sch ü ll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and "ambience management," player tracking and cash access systems—all designed to meet the market's desire for maximum "time on device." Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Sch ü ll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.

*Gambling and the Law* Rowman & Littlefield

Nanobiophysics is a new branch of science that operates at the interface of physics, biology, chemistry, material science, nanotechnology, and medicine. This book is the first one devoted to nanobiophysics and introduces this field with a focus on some selected topics related to the physics of biomolecular nanosystems, including nucleosomal DNA and model lipid membranes, nanobiohybrids involving DNA/RNA and single-walled carbon nanotubes, biomolecules deposited on nanoparticles, and nanostructured surfaces. It describes unique experimental physical methods that are used to study nanosized biostructures. It outlines the applied aspects of nanobiophysics, considering the state of art in the fabrication of two types of sensors: gas sensors, with a focus on breath gas detection, and nanophotonic sensors, with a focus on polycyclic aromatic hydrocarbon detection in water samples. It also covers the development of nanoscale scaffolds for delivery of therapeutic nucleic acids to cells, which is an important example of the possible application of nanobiophysics researches in nanomedicine.

*How to Build a Microcomputer ... and Really Understand it* Triumph Books

Composed by two prominent statesmen-generals of classical China, this book develops the strategies of Sun Tzu's classic, *The Art of War*, into a complete handbook of organization and leadership. The great leaders of ancient China who were trained in Sun Tzu's principles understood how war is waged successfully, both materially and mentally, and how victory and defeat follow clear social, psychological, and environmental laws. Drawing on episodes from the panorama of Chinese history, *Mastering the Art of War* presents practical summaries of these essential laws along with tales of conflict and strategy that show in concrete terms the proper use of Sun Tzu's principles. The book also examines the social and psychological aspects of organization and crisis management. The translator's introduction surveys the Chinese philosophies of war and conflict and explores in depth the parallels between *The Art of War* and the oldest handbook of strategic living, the *I Ching* (Book of Changes).
