Results from national and international assessments indicate that school children in the United States are not learning mathematics well enough. Many students cannot correctly apply computational algorithms to solve problems. Their understanding and use of decimals and fractions are especially weak. Indeed, helping all children succeed in mathematics is an imperative national goal. However, for our youth to succeed, we need to change how we're teaching this discipline. Helping Children Learn Mathematics provides comprehensive and reliable information that will guide efforts to improve school mathematics from pre--kindergarten through eighth grade. The authors explain the five strands of mathematical proficiency and discuss the major changes that need to be made in mathematics instruction, instructional materials, assessments, teacher education, and the broader educational system and answers some of the frequently asked questions when it comes to mathematics instruction. The book concludes by providing recommended actions for parents and caregivers, teachers, administrators, and policy makers, stressing the importance that everyone work together to ensure a mathematically literate society.

Charlotte Mason Homeschool ASCD The networks of Tennessee politicians, school leaders, and academics are rife with significant contributors to the national fabric of educational reform. This cadre includes Former White

House Chief of Staff Howard Baker, United States Senator Bill Frist (currently Chairman of the Tennessee State Collaborative on Reforming Education) former United States Secretary of Education Lamar Alexander (currently United States Senator and Conference Chair of the Republican Party) and current Governor Bill Haslam. This network has deep, current ties to The University of Tennessee, the Knoxville area, and school systems across the state of Tennessee. The Center for Educational Leadership is a highly funded, highly visible model for education reform throughout the state of Tennessee. This 3 book series will serve as a calling card for all activities that The Center for Educational Leadership is involved in around the state of Tennessee and the United States. This includes all school leadership summits for policy makers, practitioners, scholars, and legislators. It represents the shared vision and commitment of educational leaders, politicians, educational reformers, and legislators. This book will be distributed to school leaders, professional development coaches, teacher unions, scholars at several Tennessee institutions of higher education, and members of the Tennessee legislature and Department of Education. The audience for this series is primarily school leaders and scholars who are launching and designing new programs or revising and strengthening existing programs. However, those who are discussing policy at the local, state, and national level would be interested in the information given within these pages as it relates clearly to their work in educational leadership.

The Early Literacy Skills Builder program incorporates systematic instruction to teach both print and phonemic awareness. ELSB is a multi-year program with seven distinct levels and ongoing assessments so students progress at their own pace. Five years of solid research have been completed

through the University of North Carolina at Charlotte, proving ELSB to be a highly effective literacy program and more effective than a sight-word only program. ELSB is based upon the principles of systematic and direct instruction. It incorporates scripted lessons, least-prompt strategies, teachable objectives, built-in lesson repetition, and ongoing assessments. The seven ELSB levels contain five structured lessons each. All students begin at Level 1. If a student struggles here, go back and administer Level A. Instruction is one-on-one or in small groups. Teach scripted lessons daily in two 30-minute sessions. On the completion of each level, formal assessments are given. ELSB includes everything you need to implement a multi-year literacy curriculum.

Focused on physical literacy and measurable outcomes, empowering physical educators to help students meet the Common Core standards, and coming from a recently renamed but longstanding organization intent on shaping a standard of excellence in physical education, National Standards & Grade-Level Outcomes for K-12 Physical Education is all that and much more. Created by SHAPE America – Society of Health and Physical Educators (formerly AAHPERD) – this text unveils the new National Standards for K-12 Physical Education. The standards and text have been retooled to support students' holistic development. This is the third iteration of the National Standards for K-12 Physical Education, and this latest version features two prominent changes:

- The term physical literacy underpins the standards. It encompasses the three domains of physical education (psychomotor, cognitive, and affective) and considers not only physical competence and knowledge but also attitudes, motivation, and the social and psychological skills needed for participation.
- Grade-level outcomes support the national physical education standards. These measurable outcomes are organized by level (elementary, middle, and high school) and by standard. They provide a bridge between the new standards and K-12 physical education curriculum development and make it easy for teachers to assess and track student progress across grades, resulting in physically literate students. In developing the grade-level outcomes, the authors focus on motor skill competency, student engagement and intrinsic motivation, instructional climate, gender differences, lifetime activity approach, and physical activity. All outcomes are written to align with the standards and with the intent of fostering lifelong physical activity.

National Standards & Grade-Level Outcomes for K-12 Physical Education presents the standards and outcomes in ways that will help preservice teachers and current practitioners plan curricula, units, lessons, and tasks. The text also

- empowers physical educators to help students meet the Common Core standards;
- allows teachers to see the new standards and the scope and sequence for outcomes for

all grade levels at a glance in a colorful, easy-to-read format; and

- provides administrators, parents, and policy makers with a framework for understanding what students should know and be able to do as a result of their physical education instruction. The result is a text that teachers can confidently use in creating and enhancing high-quality programs that prepare students to be physically literate and active their whole lives.

If you had a giraffe and he stretched another half ... you would have a giraffe and a half. And if you glued a rose to the tip of his nose ... And ... if he put on a shoe and then stepped in some glue ... And if he used a chair to comb his hair ... And so it goes until ... but that would be telling. Children will be kept in stitches until the very end, when the situation is resolved in the most riotous way possible. Shel Silverstein's incomparable line drawings add to the hilarity of his wildly funny rhymes.

This physical education curriculum guide for kindergarten through twelfth grade has two main components. The first is a program overview that includes information relating to program organization and implementation for early, middle, and senior grades. The second section contains suggested activities and teaching notes for realizing

specific program objectives. The overall goals are that students should: (1) develop physical wellbeing; (2) develop desired movement patterns through the neuromuscular system; (3) express ideas, thoughts, and feelings with confidence through physical activity; (4) develop independence in pursuing physical activity throughout life; (5) develop safety and survival practices; and (6) develop positive social interactions through a variety of physical activities. These goals remain constant throughout the entire program, although the objectives which prepare students to reach the goals vary according to stages of maturation and learning. Developmental characteristics, time allotments, lesson plans, activities, class organization, and evaluation methods are outlined for early, middle, and senior grades. Appendixes contain an equipment list, a safety checklist, a sample lesson plan, a discussion of legal liability, and a bibliography. (JD)
