"A gal has to look out for herself after all." Clara Grey's parents once said that the world was a dark and dangerous place. There was more truth than fiction to those words. There were things that lurked in the shadows which defied the laws of nature: perversions that fed on the dead, terrorised the living, or escaped the chill touch of the grave. Clara is a member of the Tower, a religious order of hunters who work outside the confines of the Church. As keepers of the arcane, her order takes an active role to counter these threats. The life of a hunter can be short, and many disappear before their training is completed. So, what does it take to succeed against all odds? Explore Clara's origin, a child born before the dawn of the twentieth century. Witness her rigorous training, how she faces adversity, and fights in the Great War to become the derring-doer wielding flapper she is. Throughout her tale, keep in mind that no matter the threat, a gal has to look out for herself after all.

Drawing Ideas Peachpit Press

A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand--as opposed to on the computer--in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively. In a unique board binding that mimics a sketchbook, *Drawing Ideas* provides a complete foundation in the techniques and methods for effectively communicating to an audience through clear and persuasive drawings.
