This paper describes economic

developments in Grenada during the 1990s. The weak growth performance since 1990 reflected largely a continuous contraction in agricultural output, which declined each year from 1989 to 1993. The construction industry experienced a major contraction in 1992 owing to the sharp fall in public investment. In 1993, output declined in the mining and quarrying, construction, and manufacturing sectors as well as in agriculture. In contrast, the hotel and restaurant sector has exhibited strong growth since the late 1980s, with real value added growing by 13.8 percent, on average, each year since 1989.

*Automotive Almanac of Japan*

In this riveting tale we meet two couples caught in a web of conflicting passions, Diving instructor Sven Fiedler and his girlfriend, Antje, who live and work on the Spanish island of Lanzarote. When a tourist couple—Jola, a soap opera actress, and Theo, a stalled novelist—arrive for an intensive two-week diving experience, Sven is captivated by Jola's beauty and evident wealth. Theo suspects that Sven and Jola have begun an affair, but oddly, he seems to encourage them. Antje looks on, increasingly wary of these new clients. Cycling through different points of view, we are constantly kept guessing about who knows

what—and who is telling the truth. A brutal game of temptation and manipulation unfolds, pointing toward a violent end—but a quiet one, underwater, beneath the waves.

## **Standard Catalog of Imported Cars, 1946-1990**

How Posters Work is more than a standard exhibition catalogue. Conceived as a useful and illuminating primer in visual thinking, it explores principles of design through a range of historical and contemporary works, uncovering ideas relevant not just to the design of posters but to 2D design more generally. How Posters Work has a unique focus on visual language. Rather than provide a history of the genre or a compilation of collectibles, the book is organized around active design principles. Concepts such as "Simplify," "Focus the eye," "Exploit the diagonal," "Reverse expectations," and "Say two things at once" are illustrated with a diverse range of

posters, from avant-garde classics and rarely seen international works to contemporary pieces by today's leading graphic designers. Illustrated with over 150 works from the collection of Cooper Hewitt, Smithsonian Design Museum, How Posters Work provides a stunning education in seeing and making, demonstrating how some of the world's most creative designers have mobilized principles of layout, composition, psychology, and rhetoric to produce powerful acts of visual communication
