Along Bible Paths: Summer Devotions

grew out of the daily devotional e-mail list that Jody Neufeld began in 1999 to encourage others to begin their day with the Lord. Many continue to enjoy these thoughts in their e-mail every weekday morning, or via the Jody's Devotionals blog. This book is a collection organized for the summer. We hope many more will enjoy these in printed form.

This publication contains a methodology and software tools for assessing carbon stocks and modelling scenarios of carbon sequestration developed and tested in pilot field studies in Mexico and Cuba. The models and tools enable the analysis of land use change scenarios in order to identify in a given area (watershed or district) land use alternatives and land management practices that can both maximise food production, soil carbon sequestration and biodiversity and

---

minimize land degradation. The aim is to develop and implement "win-win" options that satisfy the multiple goals of farmers, land users and other stakeholders in relation to food security, carbon sequestration, biodiversity and land conservation. The publication also contains a CD-ROM including three case studies and a Soil-C program demo, program and user manual.
