The New York Times bestselling true story of an all-American girl and a boy from Zimbabwe -- and the letter that changed both of their lives forever. It started as an assignment. Everyone in Caitlin's class wrote to an unknown student somewhere in a distant place. Martin was lucky to even receive a pen-pal letter. There were only ten letters, and fifty kids in his class. But he was the top student, so he got the first one. That letter was the beginning of a

correspondence that spanned six years and changed two lives. In this compelling dual memoir, Caitlin and Martin recount how they became best friends--and better people--through their long-distance exchange. Their story will inspire you to look beyond your own life and wonder about the world at large and your place in it.

This collection is the multifaceted result of an effort to learn from those who have been educated in an American law school and who then returned to their home countries to apply the lessons of that experience in nations experiencing social, economic, governmental, and legal transition. Written by an international group of scholars and practitioners, this work provides a unique insight

into the ways in which legal education impacts the legal system in the recipient’s home country, addressing such topics as efforts to influence the current style of legal education in a country and the resistance faced from entrenched senior faculty and the use of U.S. legal education methods in government and private legal practice. This book will be of significant interest not only to legal educators in the United States and internationally, and to administrators of legal education policy and reform, but also to scholars seeking a more in-depth understanding of the connections between legal education and socio-political change.

American Pastoral is the story of a fortunate American's rise and fall—of a strong, confident master of social equilibrium overwhelmed by the forces of social disorder. Seymour "Swede" Levov—a legendary high school athlete, a devoted family man, a hard worker, the prosperous inheritor of his father's Newark glove factory—comes of age in thriving, triumphant postwar America. But everything he loves is lost when the country begins to run amok in the turbulent 1960s. Not even the most private, well-intentioned citizen, it seems, gets to sidestep the sweep of history. With vigorous realism, Roth takes us back to the conflicts and violent transitions of the 1960s. This is a book about loving—and hating—America. It's a book about wanting to belong—and refusing to belong—to America. It sets the desire for an American pastoral—a respectable life of space, calm, order, optimism, and achievement—against the indigenous American Berserk.
