In this IBM® Redbooks® publication, we give an overview of different data management topics related to a typical SAP® data center. The intrinsic functionality of SAP is not designed to completely handle all the tasks of a data center by itself, but the SAP system offers several interface possibilities to attach external tools to it to accomplish this task. We explain SAP basic concepts and the issues with SAP data management. We introduce Tivoli® Storage Manager and all of its products that are related to SAP data management. We provide some comparison between database backup and recovery tools. Finally, we discuss data archiving using IBM DB2® CommonStore for SAP, and discuss high availability requirements and disaster recovery considerations. The second part of this book discusses a practical implementation of SAP backup and recovery with Tivoli Storage Manager. We implement this setup on two separate SAP systems: one running DB2 and the other running Oracle® database. We also implement LAN-free backup and FlashCopy® scenarios. In the sample implementation section, we show many different tasks, such as backup and restore, database recovery, backup monitoring, and tuning. We also cover some advanced backup/availability considerations, such as split mirror backup and standby databases. This book helps individuals that operate an SAP environment to devise a strategy for a sound and comprehensive data backup solution using the IBM Tivoli Storage Management product family.

Chapter Eleven Developing countries Human resource development whether need to be improved Do developing countries need to help human resource development to assist their businesses development, it is possible due to staff individual lacks knowledge to do whose job in whose organization? What is the developing and developed countries' organizational human resource strategic difference, e.g. award strategies? I shall indicate one developing country, such as South Africa's businesses' general organizational human resource strategy case to explain whether what causes their human resource strategies, e.g. award management strategies are different to compare developed countries, such as US, UK as well as I also indicate what weak points that they ought to concern in order to improve these developing countries' businesses productivities and efficiency, if South Africa's firms hope to raise staff performance to be better. In general, South Africa employers feel human resource development strategy is needed to innovate and attempt to ensure that they meet the needs of their economy. So, South Africa employers are considering whether how they ought need to improve their human resource strategies in their organizations in order to raise productive efficiencies and performance to their employees effectively. In fact, because South Africa country lacks effective human resource development to recommend to itself country's businessmen how to select the right employees to do right positions, how to evaluate whom has more effort to be promoted to do senior position, lacking fair reward and welfare to compensate to their employees. So, it brings many reasons to explain why in South Africa society unemployment and poverty still existence. Not all of the reasons have to do with the capabilities of people, may have to do with the unequal distribution of productive assets in South Africa society. Nowadays, the South Africa employers only feel South Africa workers are only their own labour to use or sell. Hence, they won't like to provide reasonable

and fair award to compensate for their Africa employees general lack high education level and skills. So, it also influences their award will not increase. Moreover, there are South Africans who have skilled labours to sell and they can not find buyers because there are not enough jobs, their skills do not match the demands, and there is a systematic process for information to flow between government, the workplace and labour. Hence, many South African people are unemployed, due to their knowledge are not enough to satisfy or accept to employers' demands. It will cause South African income inequality will be continue serious. The salary range between the high education level and low education level of labours' difference is large. A cycle of income inequality, low skills and poor education have limited economic growth.

This book is a most exciting and unusual study of cultural history. The idea of the pregnant man, redolent of bawdy jokes and sexual fantasy, has inspired European literature and folklore since ancient times. Traces of the theme, both comical and disturbing, are found not only in the wealth of tales from Italy, France, Germany, Russia, Finland and other European Countries, but also in the Hebrew and Islamic traditions.

Cliff Richard has been Britain ' s longest surviving and most consistent hit music
maker. Starting his career as a rock ' n ' roll threat to decent, upstanding citizens,
he is now a friend to Royalty and prime ministers, a Knight, and a holder of the
OBE. This book tells his story chronologically, through the voices of his friends,
family, and colleagues including songwriters, film directors, managers, and
agents—like listening in on a dinner party attended by most of the key people in his
career. The stories reveal Cliff as seen by those closest to him and, in contrast to
the many official publications, this book does not just include the flattering stories.
The author ' s probing questions have elicited extraordinary memories and
observations, previously unheard by the public. Heavily illustrated with rare and
interesting photographs of Cliff at work and play, this unique oral history will
stand as a lasting testament to one of the most glorious careers in British show
business.
