When beautiful and idealistic law student Judy Alexander signs up for the Exoneration Clinic at a financially challenged law school in mid-town Manhattan, she has hopes of investigating and righting wrongful convictions. Instead, she is drawn into a media-hyped case in Texas in which a man accused of murder declines all legal assistance and offers to plead guilty—but only in exchange for being sentenced to death. Convinced of his innocence, Judy follows leads which lead first to Catalina Island off the coast of California, and then inexorably to a nineteen year old cold case in which a young girl mysteriously disappeared without a trace while visiting the iconic French landmark of Mont St. Michel, an ancient medieval monastery atop an isolated island which was occupied by a contingent of Nazi soldiers during World War II.

More Than Cloth! Peter Lang

In this powerful and culminating work about a group of inner-city children he has known for many years, Jonathan Kozol returns to the scene of his previous prize-winning books, and to the children he has vividly portrayed, to share with us their fascinating journeys and unexpected victories as they grow into adulthood. For nearly fifty years, Jonathan has pricked the conscience of his readers by laying bare the savage inequalities inflicted upon children for no reason but the accident of being born to poverty within a wealthy nation. But never has his intimate acquaintance with his subjects been more apparent, or more stirring, than in *Fire in the Ashes*, as Jonathan tells the stories of young men and women who have come of age in one of the most destitute communities of the United States. Some of them never do recover from the battering they undergo in their early years, but many more battle back with fierce and often jubilant determination to overcome the formidable obstacles they face. As we watch these glorious children grow into the fullness of a healthy and contributive maturity, they ignite a flame of hope, not only for themselves but also for our society.

The present book is the result of ten years work on the subject of historical development of Indian mythology and its connection with parallel historical development of Indian mythology and its connection with parallel mythologies elsewhere, on which no satisfactory work exists in English. In the first part the Vedic-Brahmanical and epic-puranic components of Siva, Varuna, Yama, Nirrti, Agni, Kala, the mother goddess, Kartikeya, Ganapati, Kama and Pusan are treated. Part II studies the rise of Visnu. The component gods—the Vedic solar gods Savitr, Surya, Vivasvat, Mitra, Aryaman, Bhaga, Amsa, Daksa, Martanda, Indra, and Visnu together with the epic-Puranic incarnations of Visnu (with their Vedic precursors) are analysed. With Brahman (Part III) the picture is different. In the Vedic-Brahmanical gods-Bhraspati, Brahmanaspati, Prajapati, Pitamaha and Brahman—we do not get a very tangible figure, far less that of a sectarian god. These merge into the Brahman, Prajapati or Pitamaha of the epic-Puranic literature, but fail to answer to the definition of a sectarian god, so that no cult grows around the resultant image. In Part IV the general characteristics of the Puranic pantheon are analysed. Here, on the one hand, there are innumerable regional, functional divinities, tutelary gods and goddesses, village-or disease-gods, and also gods for different occasions in life, while on the other hand there is the lofty Triad, which thanks to the predominance of philosophy, is frequently stated to be three facets of the same supreme being.
