Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering

the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the

under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Since the advent of the camera, there have been photographers whose mission is to record and interpret the public sphere in all its aspects. Eugene Atget documented evidence of everyday life in the streets as well as the buildings and monuments of Paris. Henri Cartier-Bresson pursued what he called "The Decisive Moment," the moment in which the meaning of an event was most clearly captured in a photograph. Their work, and that of many other masters, has inspired generations of photographers to wander public spaces, camera in hand, searching for meaningful moments in time. Success requires the street photographer to be proficient with their equipment, to be constantly aware of their surroundings, and to have a keen eye. Quick reflexes and self-confidence are essential: Street photographers know from experience that hesitation or procrastination could mean missing a once-in-a-lifetime shot. The adage "it's better to ask for forgiveness than permission" was probably coined by a street photographer. In *Street Photography: The Art of Capturing the Candid Moment*, Gordon Lewis helps readers understand and conquer the challenging yet rewarding world of street photography. The book includes discussions of why photographers are drawn to street photography, the different styles of street photography, and what makes a great street

photograph. Lewis then goes on to explore how the choice of location can change a photographer's approach to image capture: from city streets to fairs to beaches, Lewis discusses the impact different environments have on the process of street photography. Another crucial element to becoming a good street photographer is learning to travel light, with minimal equipment. Lewis gives readers practical advice on everything from cameras and lenses to camera bags and clothing. Lewis also delves into the techniques and approaches that will help novices master the art of street photography. Whether your style is to engage your subjects or to remain unnoticed and take candid portraits, Lewis offers ideas on how to capture fascinating moments in time: a gesture, expression, or composition that may exist for only a fraction of a second, but can leave a lasting impression of the wonders, challenges, and absurdities of modern life.

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But *KASHER IN THE RYE* is not an "eye opener" to the

horrors of addiction. It's a hilarious memoir about the absurdity of it all.

When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carroll...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.
