With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras

have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make

amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

The signature creation of cartoonist Roger Langridge, Fred the Clown is the thinking man's idiot. Fred has an eye for the ladies, as well as several other organs, but the

only part of themselves they're willing to share with him is a carefully placed kneecap. Fred the Clown's misadventures are a curious balance of bleakness and joyful absurdism; the universe may dump on Fred from a great height, but he never gives up. More often than not, they involve the pursuit of a lady—any lady will do, it seems, but bearded ladies are at the top of the list. Disappointment seems inevitable, and it usually is; yet, almost despite himself, Langridge will occasionally give Fred a happy ending out of nowhere... p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

A sweet treat for every emotion and occasion. Whether it's a celebration or the blues, nothing lifts you up better than a delicious dessert. In Shivesh Bhatia's *Desserts for Every Mood*, the maverick baker is back with an array of recipes that promise to transform any day. For Shivesh, baking has come to mean many things over the years: memories of seeing his grandmother make cakes to spending hours experimenting in the kitchen and sharing the joy with friends to baking becoming his quiet refuge after a hectic day. In his second book, Shivesh shares a range of desserts—gooey caramel chocolate tart, fresh mint lemon chiffon cake

to an exotic litchie rose tiramisu—that have helped him through difficult and happy times alike, in the hope that they will do the same for you.

Jules Verne has been acknowledged --for 150 years-- as one of the founders of the science fiction story telling genre; but, curiously enough, over a century ago readers knew him as the most popular writer of a kind of literature cataloged under the name of Travel Novel; the purpose of those who cultivated the genre was as much to teach as to entertain. However, Jules Verne went beyond the Travel Novel and became the most accredited representative of the Scientific Novel, which he further developed into the Science Fiction Novel. It would be pointless to ask Jules Verne if he brought science into the context of the novel or simply introduced the novel in the field of science; his enthusiasm led him from one genre to the other and his creativity, his fertility, did the rest. Jules Verne was the first, at least in France, to use the

marvelous scientist as main character; an element of his story-telling that especially established his enormous success. *Five Weeks in a Balloon* launched Jules Verne in 1863 into a famous and well-respected career, writing prescient literature loved worldwide. This journey of discovery in Africa by three Englishmen --Doctor Ferguson, his friend Kennedy and his valet Joe-- who undertake the crossing of the African Continent in a balloon. The reader learns the geography of Africa and the history of its main explorers and follows, along the way, a course of aerostation. *Journey to the Center of the Earth* is Jules Verne's most popular work --a tale of adventures inside planet Earth, written in 1864. The novel deals with the discovery of an ancient runic manuscript by a German scholar who, with his nephew and a guide, undertakes a journey to the center of the earth by entering through an extinct Icelandic volcano, the Snfellsjokull; it is a clever mix of scientific data, daring extrapolations and adventures very representative of what Verne later published. Professor Lidenbrock is bigger than life with his unlimited devotion to science and his ethics, but also by his ridiculous antics. The novel is not just an

imaginary trip toward the Earth's core; it is also a journey in paleontology that takes the reader through the various epochs of our planet's formation. The possibility of a subterranean sea similar to the Lidenbrock Sea has been for a long time refuted by geological scientists; however, in 2016, researchers from Florida State University and the University of Edinburgh estimated that water existed far deeper in the Earth than previously thought. Although the exact amount of water is unknown, researchers believe it could account for as much as 1.5 percent of the weight of the planet --the same amount of water as all the world's oceans put together. I don't know if this body of water has yet been given a name; but may I suggest Lidenbrock Sea. Around the World in 80 Days is Jules Verne's masterpiece: The first three chapters alone would make a fine short story. The book is an absolute joy to read, beautifully written with thrilling adventures, brief historical background notes concerning a given place and time, subtle humor and --Romance. Jean Passepartout, a young Frenchman, muscular and of herculean strength, has practiced such disparate trades as street singer, circus acrobat, gymnastics teacher, and fireman sergeant

in Paris; but he is tired of that existence. After leaving behind the Jack-of-all-trade lifestyle of his youth, we find him in London, trying out the more peaceful trade of valet. Passepartout is delighted to find Phileas Fogg, the perfect sedentary English gentleman. He gladly foresees a future of pure blissful quietude as valet in the house on Saville Row; but his dream of blissful tranquility is cut short, for the very day he is hired, Phileas Fogg, contrary to his calm, collected, sedentary nature, decides to take up the challenge of traveling around the world in eighty days! And right there and then, our young Frenchman is embarked on a race against time around the planet. Enjoy!

Many of the sitters in this collection were John Singer Sargent's close friends. They are posed informally, sometimes in the act of painting or singing, and it is evident from the bold way they confront us that they are personalities of a creative stamp. Brilliant as these pictures are as works of art and penetrating studies of character, they are also records of

relationships, allegiances, influences and aspirations. This volume, and the exhibition it accompanies, aims to explore these friendships in depth and draw out their significance in the story of Sargent's life and the development of his art. The book is structured chronologically, with sections arranged according to the places Sargent worked and formed relationships during his cosmopolitan career: Paris, London, New York, Italy and the Alps. The cast of characters includes famous names, among them Gabriel Fauré and Auguste Rodin, Robert Louis Stevenson and Henry James. But the authors also make their point with images of Sargent's familiars, such as the artists Jane and Wilfrid de Glehn who accompanied him on his sketching expeditions to the Continent, and the Italian painter Ambrogio Raffele, a recurrent model in his Alpine studies. In such paintings Sargent explored the making of art (his own included) and the relationship of the artist to the natural world. These are examples of an absorbing range of images and

personalities, all distinguished in one way or another for their artistry, and all linked by friendship and a shared aesthetic to the central figure of Sargent himself.
