With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level

learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

Book and accompanying video with over six hours of video training—all geared to teach you everything about shooting video with your DSLR. With the arrival of high-definition video-enabled DSLR cameras, photographers are faced with an opportunity for creativity and a competitive edge in their field unlike anything they've experienced before. Add to that the expanding demands from a video-hungry audience and it's no longer a matter of if you are going to add video to your repertoire of skills, it's when. Here to guide you in a thorough exploration of the video-making process — from preproduction to post — and to

ease your transition from still to motion are four veterans who speak the language of both photography and video fluently. With their clear, instructive approach, they quickly get you up to speed on everything from picking your gear, to properly lighting for motion, to using professional-level audio, color correction, and editing techniques, to media management and outputting, and much more. Here are just a few highlights from this richly illustrated, completely interactive book and video:

Explores the entire spectrum of video for DSLR camera owners, with recommendations on gear, planning, lighting, lenses, audio, editing, color correcting, exporting, media management, and more. Covers a wide variety of shooting styles, including indoor, outdoor, studio, portrait, event, and available light. Addresses technical challenges associated with DSLR video, such as

---

camera movement, multiple camera coverage, low-light videography, and synchronized sound. Explores additional creative techniques such as stop motion and timelapse photography in depth. Includes a real-world example of a music video and promo package throughout the book to demonstrate concepts in action, with additional profiles of photography experts in nature, sports, commercial, and weddings and events. The accompanying video contains over 6 hours of video training that delves deeper into each topic, as well as high-definition footage, hands-on project files, and templates to experiment with and follow along. Share your work and communicate with other readers at [www.facebook.com/dslrvideo](http://www.facebook.com/dslrvideo). All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for "Where are the lesson files?" Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.

Anyone can make a short film, right? Just grab some friends and your handheld and you can do it in a weekend or two before being accepted to a slew of film festivals, right? Wrong. Roberta

---

Munroe screened short film submissions at Sundance for five years, and is an award-winning short filmmaker in her own right. So she knows a thing or two about how not to make a short film. From the first draft of your script to casting, production, editing, and distribution, this is your one-stop primer for breaking into the business. Featuring interviews with many of today's most talented writers, producers, and directors, as well as revealing stories (e.g., what to do when the skinhead crack addict next door begins screaming obscenities as soon as you call "action") from the sets of her own short films, Roberta walks you through the minefield of mistakes that an aspiring filmmaker can make--so that you don't have to make them yourself.
