Application (Record)

Taking pictures by setting the aperture value and shutter speed [Manual

Exposure] Mode You can use this recording mode to set the desired shutter speed and aperture value when you want to take

pictures using the same exposure (same combination of shutter speed and aperture value) or when you cannot obtain pictures at the desired brightness even after compensating the exposure.

LUMIX Ambassador Jacob James explains the choice of containers, sensor modes, resolution and aspect ratio settings. While Full Frame mode gives you the most options for post-production and highest resolution options up to 6K, Super35-mode with up to C4K-resolution is also included. Codecs offer up to 400 Mbit/s and are either All-intra or Long-GOP.
