The Morphological Atlas of the Dutch Dialects (MAND) presents word formation in Dutch and Frisian dialects at the end of the twentieth

century in two comprehensive volumes. Based on data acquired in the field between 1979 and 2000, this collaborative effort between linguists from the Netherlands and Belgium deals with the grades of comparison of adjectives, possessive pronouns, personal pronouns for subject and object, the endings of present- and past-tense strong and weak verbs, the participle prefix, and the stem form of strong verbs.

Written in recognition of developments in spatial data analysis that focused on differences between places, the first edition of Local Models for Spatial Analysis broke new ground with its focus on local modelling methods. Reflecting the continued growth and

increased interest in this area, the second edition describes a wide range of methods which account for local variations in geographical properties. What ' s new in the Second Edition: Additional material on geographically-weighted statistics and local regression approaches A better overview of local models with reference to recent critical reviews about the subject area Expanded coverage of individual methods and connections between them Chapters have been restructured to clarify the distinction between global and

local methods A new section in Information Science each chapter references key studies or other accounts that support the book Selected resources provided online to support learning An introduction to the methods and their underlying concepts, the book uses worked examples and case studies to demonstrate how the algorithms work their practical utility and range of application. It provides an overview of a range of different approaches that have been developed and employed within Geographical (GIScience). Starting with first principles, the author introduces users of GISystems to the principles and application of some widely used local models for the analysis of spatial data, including methods being developed and employed in geography and cognate disciplines. He discusses the relevant software packages that can aid their implementation and provides a summary list in Appendix A. Presenting examples from a variety of disciplines, the book demonstrates the importance of local models for all who make use of spatial data. Taking a problem driven approach, it provides extensive guidance on the selection and application of local models. Korean Routledge Internationally beloved opera star Deborah Voigt recounts her harrowing and ultimately successful private battles to overcome the addictions and self-destructive tendencies that nearly destroyed her life. Call Me Debbie is one of the most electrifying performances of Deborah Voigt ' s life. The brilliantly gifted opera soprano takes us behind the

velvet curtains to tell her compelling story—a tale of success, addiction, music, and faith as dramatic as any role she has performed. For the first time, she talks about the events that led to her dangerous gastric bypass surgery in 2004 and its shocking aftermath: her substantial weight loss coupled with the “cross addiction” that led to severe alcoholism, frightening all-night blackouts, and suicide attempts. Ultimately, Voigt emerged from the darkness to achieve complete sobriety, thanks to a twelve-step program and a recommitment to her Christian faith. Colored by hilarious anecdotes and juicy gossip that illuminate what really goes on backstage, Voigt paints diverting portraits of the artists with whom

she’s worked, her most memorable moments onstage, and her secrets to great singing. She also offers fascinating insight into the roles she’s played and the characters she loves, including Strauss’s Ariadne and Salome, Puccini’s Minnie, and Wagner’s Sieglinde, Isolde, and Brünnhilde, sharing her intense preparation for playing them. Filled with eight pages of color photos, *Call Me Debbie* is an inspirational story that offers a unique look into the life of a modern artist and a remarkable woman.

In this heartwarming essay collection, dozens of authors, actors, artists and others imagine

one last lunch with someone they cherished. A few years ago, Erica Heller realized how universal the longing is for one more moment with a lost loved one. It could be a parent, a sibling, a mentor, or a friend, but who wouldn't love the opportunity to sit down, break bread, and just talk? Who wouldn't jump at the chance to ask those unasked questions, or share those unvoiced feelings? In *One Last Lunch*, Heller has asked friends and family of authors, artists, musicians, comedians, actors, and others, to recount one such fantastic repast. Muffie Meyer and her documentary subject Little Edie

Beale go to a deli in Montreal. Kirk Douglas asks his father what he thought of him becoming an actor. Sara Moulton dines with her friend Julia Child. The Anglican priest George Pitcher has lunch with Jesus. And Heller herself connects with her father, the renowned author Joseph Heller. These richly imagined stories are endlessly revealing, about the subject, the writer, the passage of time, regret, gratitude, and the power of enduring love. *Murder in the Mystery Suite* Abrams

The truth about superpowers . . . science fact or science fiction? "An entertaining and informative guide to comic book wonders bound to come."
—Julius Schwartz, Editor Emeritus, DC Comics
Superman, Batman, The X-Men, Flash, Spider Man . . . they protect us from evildoers, defend truth and justice, and, occasionally, save our planet from certain doom. Yet, how much do we understand about their powers? In this engaging

yet serious work, Lois Gresh and Robert Weinberg attempt to answer that question once and for all. From X-ray vision to psychokinesis, invisibility to lightspeed locomotion, they take a hard, scientific look at the powers possessed by all of our most revered superheroes, and a few of the lesser ones, in an attempt to sort fact from fantasy. In the process, they unearth some shocking truths that will unsettle, alarm, and even terrify all but the most fiendish of supervillains. Lois Gresh (Rochester, NY) has written eight novels and nonfiction books as well as dozens of short

stories and has been nominated for national fiction awards six times. Robert Weinberg (Oak Forest, IL) is a multiple award-winning author of novels, nonfiction books, short stories and comics.
