[The Culture of Narcissism: American Life in An Age of Diminishing Expectations](#) Corwin Press

In *The Program Era*, Mark McGurl offers a fundamental reinterpretation of postwar American fiction, asserting that it can be properly understood only in relation to the rise of mass higher education and the creative writing program. McGurl asks both how the patronage of the university has reorganized American literature and—even more important—how the increasing intimacy of writing and schooling can be brought to bear on a reading of this literature. McGurl argues that far from occasioning a decline in the quality or interest of American writing, the rise of the creative writing program has instead generated a complex and evolving constellation of aesthetic problems that have been explored with energy and at times brilliance by authors ranging from Flannery O'Connor to Vladimir Nabokov, Philip Roth, Raymond Carver, Joyce Carol Oates, and Toni Morrison. Through transformative readings of these and many other writers, *The Program Era* becomes a meditation on systematic creativity—an idea that until recently would have seemed a contradiction in terms, but which in our time has become central to cultural production both within and beyond the university. An engaging and stylishly written examination of an era we thought we knew, *The Program Era* will be at the center of debates about postwar literature and culture for years to come.

GoPro Hero4 User Manual Harvard University Press

The classic New York Times bestseller, with a new introduction by E.J. Dionne Jr. When *The Culture of Narcissism* was first published in 1979, Christopher Lasch was hailed as a "biblical prophet" (*Time*). Lasch's identification of narcissism as not only an individual ailment but also a burgeoning social epidemic was groundbreaking. His diagnosis of American culture is even more relevant today, predicting the limitless expansion of the anxious and grasping narcissistic self into every part of American life. *The Culture of Narcissism* offers an astute and urgent analysis of what we need to know in these troubled times.

The Program Era

Help teens in the academic middle succeed by creating and valuing other ways to win! Research suggests that more than half of high school graduates are not academically prepared for college, yet they do not have significant learning disabilities preventing them from succeeding in a traditional classroom setting. This timeless bestseller, now in its third edition, has been updated with new data, recommendations, and observations to explore the choices available to these students beyond traditional four-year colleges. Illustrating options that are more accessible
