Welcome to the world of the naked corporation. Transparency is revolutionizing every aspect of our economy and its industries and forcing firms to rethink their fundamental values. We are in an extraordinary age where businesses must make themselves clearly visible to shareholders, customers, employees, partners, and society. Financial data, employee grievances, internal memos, environmental disasters, product weaknesses, international protests, scandals and policies, good news and bad; all can be seen by anyone who knows where to look. Don Tapscott, bestselling author and one of the most sought after strategists and speakers in the business world, is famous for seeing into the future and pointing out both its forest and its trees. David Ticoll, visionary researcher, columnist, and consultant, has identified countless breakthrough trends at the intersection of technology and business strategy. These two longtime collaborators now offer a brilliant guide to the new age of openness. In The Naked Corporation, they explain how the new transparency has caused a power shift toward customers, employees, shareholders, and other stakeholders; how and where information has exploded; and how corporations across many industries have seized on transparency not as a challenge but as an opportunity. Drawing on such examples as Shell Oil 's reinvention of itself as an environmentally focused business, to Johnson & Johnson 's longstanding and carefully nurtured reputation as a company worthy of trust—as well as little-known examples from pharmaceuticals, insurance, high technology, and financial services—Tapscott and Ticoll offer invaluable advice on how to lead the new age, rather than simply react to it. The Naked Corporation is a book for managers, employees, investors, customers, and anyone who cares about the future of the corporation and society.

This comprehensive history of Noosa comes straight from the heart. Award-winning writer Phil Jarratt has lived in the seaside town for more than 30 years, and has played many roles, as both communicator and protagonist, over its transition from sleepy village to iconic resort. In many ways it is a love letter to his adopted home, but the Noosa story is not always a pretty one, and Jarratt does not flinch from the harsh realities of the cruelties inflicted on the Kabi Kabi First Nation, nor from the wild years when Tewantin was a playground for cashed-up gold diggers, nor from the unscrupulous development deals of the Joh era. But this is a history filled with admiration for the fighters of the past, and hope for the future.
