Photographer's Guide to the Panasonic Lumix LX5: Getting the Most from Panasonic's Advanced Digital Camera is the third book in a series by Alexander S. White. His previous guides to the Leica D-

Lux 4 and Panasonic Lumix LX3 were extremely well received by enthusiasts searching for comprehensive books that explain the features and operation of some of the most sophisticated compact digital cameras being sold today. The current book is a detailed resource, illustrated by more than 150 color photographs, that covers all operations, menus, and controls of the Panasonic Lumix LX5, the newest in a line of highly sophisticated, yet very portable cameras that are equipped with full manual controls as well as advanced digital technology. The book provides detailed

guidance to beginning, intermediate, and more experienced photographers in plain English. The photographs illustrate the camera's menus and controls, and provide examples of many of the camera's shooting modes and special effects. For those who find the documentation provided by the camera's manufacturer to be hard to read and difficult to understand, this book fills an information gap and serves as a single source of information to let the photographer derive the maximum benefit from his or her Panasonic Lumix LX5 camera.

What was the very first situation comedy on American television? What was the first police drama? When was the first program broadcast in color? It takes only a moment of pondering such questions to realize how little we really know about the history of the medium that entertains us, informs us, and keeps us company at some point during each day and night. Every generation since the end of World War II has seen television become an integral part of our lives. However, even the most avid TV viewers are unaware of when, and under what circumstances, each onscreen television milestone has taken place. For the First Time on Television is a history of television presented with a fresh approach, by extensively examining the history of nearly 100 of television's "firsts," ranging from the first person ever to appear on a television screen, to the day the first HDTV screen made its debut, and everything in between. Here you'll find little-known but fascinating kernels of information regarding the groundbreaking programs, individuals, and events that have become an important part of TV history, and that still affect what we see on television today. You'll probably find yourself indulging in these "firsts" the way you'd treat an open bag of potato chips-by discovering how it is nearly impossible to enjoy just one or two without reaching for more. Young children and sometimes adults feel as if they deserve respect just for being who they are--and of course we all deserve respect. However, in this story, the T-Rex while demanding respect does not give it to others. He chases after the Archaeopteryx who insulted him with little regard for others until he runs into someone even bigger than him and eventually finds a friend who accepts him for who he is. Please enjoy this book and its many characters like the triceratops, hadrosaurid, and sauropod. Series description: This is Book 1 in Franky Forlorn's Unillustrated Stories for Children. These are a kind of picture book with no pictures. The idea is that parents and children can work together to produce their own images by drawing, looking things up, or just talking about what they imagine.
