It is commonly believed that populist politics and social media pose a serious threat to our concept of truth.

Philosophical pragmatists, who are typically thought to regard truth as merely

that which is 'helpful' for us to believe, are sometimes blamed for providing the theoretical basis for the phenomenon of 'post-truth'. In this book, Sami Pihlström develops a pragmatist account of truth and truth-seeking based on the ideas of William James, and defends a thoroughly pragmatist view of humanism which gives space for a sincere search for truth. By elaborating on James's pragmatism and the 'will to believe' strategy in the philosophy of

religion, Pihlström argues for a Kantian-inspired transcendental articulation of pragmatism that recognizes irreducible normativity as a constitutive feature of our practices of pursuing the truth. James himself thereby emerges as a deeply Kantian thinker. Japanese Monochrome TV Service Manual CRC Press

In the beginning there was love. The Goddess of Life in an elated romance with a beloved mortal. Her

sister killed him. Their combined actions ripping a hole in destiny and plaguing mankind with an age of unprecedented corruption, vicious holy wars, and religious absolution. Though long forgotten by the mortals they serve, Zeus and his Pantheon continue to foster and protect mankind which is tearing itself apart—but even God isn't infallible.

After failed diplomacy, the King of the Gods is left with no choice but to take the persona of a modern man—the famed genetic scientist Dr. Hork. In an effort to preserve the future by reshaping the past, Dr. Hork uses Project Genesis—the transfer of consciousness—to send subjects back in time. However, not without devastating failures. Subjects of the experiment wreak havoc upon humanity until a familiar character is reborn to correct the course. Reincarnated and ready to fulfill his true destiny, Joshua Bach is the catalyst the Gods have been waiting for—and Dr. Hork’s final beacon of salvation. Ferociously idealistic, the free-spirited young man struggles to come-of-age in a time and society ruled by money and corruption. Under the wing of the Gods, Josh rediscovers his purpose, along with a love that can only be considered timeless. Set in three periods—modern day, the 1960s, and ancient Mesopotamia—this epic blends human history, ruthless mythology, science fiction, and the supernatural to tell a love story of the future.

determined in large measure by identity issues in this region. This book examines the ways in which ethnic and national values and identities have been surpassed as the overriding focus in the lives of the region's youth. Employing bottom-up, ethnographic, and interview-based approaches, it explores when and where ethnic and national identification processes become salient. Using intra-national and international comparisons of youth populations of Albania, Bosnia-Herzegovina, Croatia, Macedonia, Montenegro, and Serbia, contributors uncover the mechanisms by which ethnic identities are evoked, reproduced and challenged. In addition to exploring political, regional cultural generational and class identities, the contributors examine wider questions of European unity. This volume offers a corrective to previous thinking about youth ethnic identities and will prove useful to scholars in political science and sociology studying issues of ethnic and national identities and nationalism, as well as youth cultures and identities.
