More than perhaps any other folkloric tradition, whether oral or written, the myths of classical Greece and Rome have survived and pervaded the consciousness of lands far-flung from their source. The mythic world of the ancients, peopled by glamorous gods and unstoppable heroes, in which the mortal and immortal commingled, is even now a living presence in 21st century culture, rather than a literary relic. Whether we know them by their Roman or their Greek names - Artemis or Minerva, Poseidon or Neptune - the figures of these ancient myths captured the imagination of culture after culture across the globe, inspiring writers, artists, musicians and those of us who comprise the audience for their works. Can it be a coincidence that the greatest poets of the western world have each at one point tried their hand at retellings? Kossman's anthology assembles some of the best of these poems inspired by ancient myths, organizing them by theme, and allowing the reader to compare one against the other - for example, one section assembles poems telling the stories of mythic lovers (Cupid and Psyche, Orpheus and Eurydice); another the many tales of miraculous transformations (Pygmalion and Galatea, Echo and Narcissus). With such a wide variety of the world's best poets to choose from - from all over the world and from any era since classical times - Kossman has had no difficulty creating a literary pantheon; included are D. H. Lawrence, Derek Walcott, Rita Dove, Denise Levertov, Rilke, Pound, and Yeats. The collection should be a treasure for the innumerable devotees of both myth and poetry.

Mongrel Nation surveys the history of the United Kingdom's African, Asian, and Caribbean populations from 1948 to the present, working at the juncture of cultural studies, literary criticism, and postcolonial theory. Ashley Dawson argues that during the past fifty years Asian and black intellectuals from Sam Selvon to Zadie Smith have continually challenged the United Kingdom's exclusionary definitions of citizenship, using innovative forms of cultural expression to reconfigure definitions of belonging in the postcolonial age. By examining popular culture and exploring topics such as the nexus of race and gender, the growth of transnational politics, and the clash between first- and second-generation immigrants, Dawson broadens and enlivens the field of postcolonial studies. Mongrel Nation gives readers a broad landscape from which to view the shifting currents of politics, literature, and culture in postcolonial Britain. At a time when the contradictions of expansionist braggadocio again dominate the world stage, Mongrel Nation usefully illuminates the legacy of imperialism and suggests that creative voices of resistance can never be silenced. Dawson "Elegant, eloquent, and full of imaginative insight, Mongrel Nation is a refreshing, engaged, and informative addition to post-colonial and diasporic literary scholarship." —Hazel V. Carby, Yale University "Eloquent and strong, insightful and historically precise, lively and engaging, Mongrel Nation is an expansive history of twentieth-century internationalist encounters that provides a broader landscape from which to understand currents, shifts, and historical junctures that shaped the international postcolonial imagination." —May Joseph, Pratt Institute Ashley Dawson is Associate Professor of English at the City University of New York's Graduate Center and the College of Staten Island. He is coeditor of the forthcoming *Exceptional State: Contemporary U.S. Culture and the New Imperialism*.

A journey to some of the Earth's most endangered people in the remote Upper Amazon ... a look at the rituals of the Bwiti cults of Gabon and Zaire ... a field watch on the eating habits of 'stoned' apes and

chimpanzees - these adventures are all a part of ethnobotanist Terence McKenna's extraordinary quest to discover the fruit of the Tree of Knowledge. He wonders why, as a species, we are so fascinated by altered states of consciousness. Can they reveal something about our origins as human beings and our place in nature? As an odyssey of mind, body and spirit, Food of the Gods is one of the most fascinating and surprising histories of consciousness ever written. And as a daring work of scholarship and exploration, it offers an inspiring vision for individual fulfilment and a humane basis for our interaction with each other and with the natural world.

Helen of Troy BRILL

Pandora and her friends Alcie, Iole, and Homer are practically evil-hunting experts. Jealousy, Vanity, and Laziness are all safely in the box and they already know Lust is lurking on Mount Pelion, so this fourth task should be super easy. Just one teeny tiny problem: the evil is hiding at a wedding that took place 1,300 years ago. Luckily, the messenger god, Hermes steps in to help Pandy and her friends travel back in time-with just one rule: don't change anything. At the wedding, they recognize most of the gods and goddesses, but nobody recognizes them. (Duh, they haven't been born yet.) So they can search for the evil without drawing attention to themselves. But then Lust appears in the middle of a fateful argument between three of the most powerful goddesses. There's no way Pandora can capture the evil without making a big scene. And worse, if she takes it at the wrong moment, she won't just change the course of history-she'll be history. Yup, this quest is totally under control . . . gulp!

"The story of Helen of Troy has its origins in ancient Greek epic and didactic poetry, more than 2500 years ago, but it remains one of the world's most galvanizing myths about the destructive power of beauty. Much like the ancient Greeks, our own relationship to female beauty is deeply ambivalent, fraught with both desire and danger. We worship and fear it, advertise it everywhere yet try desperately to control and contain it. No other myth evocatively captures this ambivalence better than that of Helen, daughter of Zeus and Leda, and wife of the Spartan leader Menelaus. Her elopement with (or abduction by) the Trojan prince Paris "launched a thousand ships" and started the most famous war in antiquity. For ancient Greek poets and

philosophers, the Helen myth provided a means to explore the paradoxical nature of female beauty, which is at once an awe-inspiring, supremely desirable gift from the gods, essential to the perpetuation of a man's name through reproduction, yet also grants women terrifying power over men, posing a threat inseparable from its allure. Many ancients simply vilified Helen for her role in the Trojan War but there is much more to her story than that: the kidnapping of Helen by the Athenian hero Theseus, her sibling-like relationship with Achilles, the religious cult in which she was worshipped by maidens and newlyweds, and the variant tradition which claims she never went to Troy at all but was whisked away to Egypt and replaced with a phantom. In this book, author Ruby Blondell offers a fresh look at the paradoxes and ambiguities that Helen embodies.

Moving from Homer and Hesiod to Sappho, Aeschylus, Euripides, and others, Helen of Troy shows how this powerful myth was continuously reshaped and revisited by the Greeks. By focusing on this key figure from ancient Greece, the book both extends our understanding of that culture and provides a fascinating perspective on our own." - Besedilo s knji Ž nega zavihka.

One of the major trends in the psychology of religion is the growing interest in religious and spiritual meaning making in relation to religious and spiritual transformation processes, notably as the aftermath of traumatic experiences and in situations of crisis, stress or disease when personal well-being is at stake and coping activities and skills are enhanced. This volume covers this broad and complex area of interrelated issues. The contributions focus on religious and spiritual meaning making and transformation. They do not compose an integrated perspective on religious meaning making and transformation processes. Rather, this volume assembles and presents the current state of research on this complex of issues. Thus it not only provides an excellent overview of the psychological study of constructs of meaning and religious transformation, but also contributes to our knowledge of contemporary religious life in the context of socio-cultural transformation processes (pluralisation, globalization).

The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel — the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon's colorful characters — rock stars, hippies, murderers and politicians — happily coexisted alongside a covert military installation.

This book offers a fresh account of the Anzac myth and the bittersweet emotional experience of Gallipoli tourists. Challenging the straightforward view of the Anzac obsession as a kind of nationalistic military Halloween, it shows how transnational developments in tourism and commemoration have created the conditions for a complex, dissonant emotional experience of sadness, humility, anger, pride and empathy among Anzac tourists. Drawing on the in-depth testimonies of travellers from Australia and New Zealand, McKay shines a new and more complex light on the history and cultural politics of the Anzac myth. As well as making a ground breaking, empirically-based intervention into the culture wars, this book offers new insights into the global memory boom and transnational developments in backpacker tourism, sports tourism and “dark ” or “ dissonant ” tourism.
