From New York Times bestselling author Margaret Peterson Haddix comes the first book in a “crisp, intriguing, and thought-provoking” (Booklist, starred review) new series about twins who are on a quest to discover the secrets being kept by their new family. Nick and Eryn’s mom is getting remarried, and the twelve-year-old twins are skeptical when she tells them their lives won’t

change much. Well, yes, they will have to move. And they will have a new stepfather, stepbrother, and stepsister. But Mom tells them not to worry. They won’t ever have to meet their stepsiblings. This news puzzles Nick and Eryn, so the twins set out on a mission to find out who these kids are—and why they’re being kept hidden.

Helena (or Pandy, for short) has no idea what she'll bring for her school project. By accident she discovers a simple box, said to contain something so terrifying and horrible that no one must ever, ever touch it for fear of inflicting all of mankind with the wrath of the Gods and Goddesses. This, of course, makes the box the perfect thing for Pandora to bring for her school project. Unfortunately, things don't go quite the way she was hoping, and

the box accidentally gets opened, unleashing all kinds of evil and misery into the world. Hauled before Zeus, Hera and the rest of immortals, Pandy's given the task of collecting all the evils within a year's time. King of Ithaka HarperCollins In his 1978 Lewis Henry Morgan Lectures,

unpublished until now, Gilbert Lewis takes on essential problems for medical anthropology. Has there been progress in medicine? Consider what it was like to be ill in a Gnau village in the West Sepik Province of Papua New Guinea in 1968 and compare it with the experience of illness fifteen years later, after they gained independence. The changes involved some loss of self-reliance. Or consider Bregbo, a community in the Ivory Coast whose prophet offers

---

healing through confession and, in some cases, long-term care in a therapeutic setting. What does this offer that psychiatric approaches to healing do not? Drawing on these and other cases, Lewis conveys the importance of the ethnographic comparison of medical beliefs in dynamic spaces of knowledge to do with illness, health, and healing, especially as these change over time and intersect with others. Capturing debates during a key moment in the development of medical

anthropology, these lectures also inspire us to look with new eyes at contemporary problems in the field. [Game of Stars \(Kiranmala and the Kingdom Beyond #2\)](#) EverAfter Romance Greed is hiding somewhere in Rome. And that means Pandy doesn't just have to deal with the Greek Gods (including the evil Hera) she has to deal with their Roman counterparts. That means two messenger gods, two goddesses of beauty...even the all powerful Zeus has a double in Jupiter! [Dr. Strange Beard](#) Columbia University Press Pandora and her friends

Alcie, Iole, and Homer are practically evil-hunting experts. Jealousy, Vanity, and Laziness are all safely in the box and they already know Lust is lurking on Mount Pelion, so this fourth task should be super easy. Just one teeny tiny problem: the evil is hiding at a wedding that took place 1,300 years ago. Luckily, the messenger god, Hermes steps in to help Pandy and her friends travel back in time-with just one rule: don't change anything. At the wedding, they recognize most of the gods

---

and goddesses, but nobody recognizes them. (Duh, they haven't been born yet.) So they can search for the evil without drawing attention to themselves. But then Lust appears in the middle of a fateful argument between three of the most powerful goddesses. There's no way Pandora can capture the evil without making a big scene. And worse, if she takes it at the wrong moment, she won't just change the course of history-she'll be history. Yup, this quest is totally under control . . . gulp!

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from

New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and

respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

In Cranbury-on-Sea Aunt Maria rules with a rod of sweetness far tougher than iron and deadlier than poison. Strange and awful things keep happening in Cranbury. Why are all the men apparently gray-suited zombies? Why do all the children—if you ever see

them—behave like clones? And what has happened to Mig's brother, Chris? Could gentle, civilized Aunt Maria, with her talk and daily tea parties, possibly have anything to do with it? Diana Wynne Jones once again has created a fantastic, magical world. Her brilliant storytelling and wonderful sense of humor totally involve the reader in the lives of a lovable young heroine and a villainess readers will love to hate.

*Pandora Gets Jealous* Hau  
A passionate, magnetic memoir that explores writer and podcast host Nichole Perkins's obsession with pop culture and the challenges of navigating relationships as a Black woman through feminism and Southern mores. Pop culture is the Pandora's Box of our lives. Racism, wealth, poverty,

---

beauty, inclusion, exclusion, and hope -- all of these intractable and unavoidable features course through the media we consume. Examining pop culture's impact on her life, Nichole Perkins takes readers on a rollicking trip through the last twenty years of music, media and the internet from the perspective of one southern Black woman. She explores her experience with mental illness and how the TV series Frasier served as a crutch, how her role as mistress led her to certain

internet message boards that prepared her for current day social media, and what it means to figure out desire and sexuality and Prince in a world where marriage is the only acceptable goal for women. Combining her sharp wit, stellar pop culture sensibility, and trademark spirited storytelling, Nichole boldly tackles the damage done to women, especially Black women, by society's failure to confront the myths and misogyny at its heart, and her efforts to stop the various cycles that limit

confidence within herself. By using her own life and loves as a unique vantage point, Nichole humorously and powerfully illuminates how to take the best pop culture has to offer and discard the harmful bits, offering a mirror into our own lives. *The Cavern's Wise Woman: The Bear Goddess Infobase Publishing*

latest update to the book that shaped and evolved the landscape of interaction design. This comprehensive guide takes the worldwide shift to smartphones and tablets into account. New information includes discussions on mobile apps, touch interfaces, screen size considerations, and more. The new full-color interior and unique layout better illustrate modern design concepts. The interaction design profession is blooming with the success of design-intensive companies, priming customers to expect "design" as a critical ingredient of marketplace success. Consumers have little tolerance for websites, apps, and devices that don't live up to their expectations, and the responding shift in business philosophy has become widespread. About Face is the book that brought interaction design out of the research labs and into the everyday lexicon, and the updated Fourth Edition continues to lead the way with ideas and methods relevant to today's design practitioners and developers. Updated information includes: Contemporary interface, interaction, and product design methods Design for mobile platforms and consumer electronics State-of-the-art interface recommendations and up-to-date examples Updated Goal-Directed Design methodology Designers and developers looking to remain relevant through the current shift in consumer technology habits will find About Face to be a comprehensive, essential resource.

Bulfinch's Mythology  
(布爾芬奇的神話故事選集)

Harper Collins

We say, you belong to me, or I belong to you. But is it possible to be possessed by others? And can we ever possess ourselves? In this raw and intimate account, Eva-Lynn Jagoe merges memoir with critical theory as she recounts the unraveling of everything she thought she knew about selfhood, relationships, and desire.

Through the story of an upbringing in a patriarchal Spanish and American household, a dissociative and painful relationship towards men and power, and a chaotic marriage and divorce, she interrogates the destructive

fantasy of possessive individualism that permeates our psyches and our cultural expectations. Woven through this narrative is an account of the unique relationship that Jagoe has with her psychoanalyst, in which she works through her tendency to give herself away to others, and learns to navigate the many contradictory selves that we all hold within us. This journey leads her to an enriched understanding of self-possession. Jagoe's account of an examined life is inseparable from her commitment to the psychoanalytic, feminist, and queer theories that sustain and nourish her in her search for an expanded definition of self. Jagoe's unique blend of musings and

reflections on literature, fairy tale, and culture; her willingness to delve into abjection and contradictory desires; and her honest portrayal of the realities of psychoanalysis allow for a timely exploration of gender, sex, and power. Take Her, She's Yours belongs in the company of Eve Kosofsky Sedgwick's *A Dialogue on Love* and the memoirs of Maggie Nelson, Rachel Cusk, and Lidia Yuknavitch. It engrossingly conveys the lived urgency of critical thinking and the pleasures and perils of embodied selfhood. Take Her, She's Yours is a story about loss and letting go, but also about the intimacy that emerges through an expanded definition of selfhood. Eva-Lynn Jagoe is the
