made economic progress. Yet women's economic engagement and empowerment are subdued, as they cannot make sufficient choices for themselves. This book provides a comprehensive analysis of the economic developments in gender equality in Bangladesh. Through examining women's participation in the labour force, ownership and control of household assets, use and control of financial assets, and opportunities for entrepreneurship, the authors have made concrete recommendations to overcome challenges that lie ahead for women's economic empowerment. This book is an important contribution to the knowledge on interventions required by the policy makers and broader stakeholders towards narrowing gender gaps. --Fahmida Khatun, PhD, Executive Director, Centre for Policy Dialogue (CPD), Bangladesh

The women's story is central to Bangladesh's economic and social transformation. There is an urgent need to deepen researched understanding of the multidimensional pathways of women's economic empowerment and extent of real progress made. Voices to Choices is an important contribution to this story. Surely, the journey of women's economic empowerment remains a long and challenging one. Realizing the full benefits of new opportunities is often hampered by both

new and entrenched insecurities. The task is as much one of empowering women ' s agency as of dismantling barriers. The responsibility is as much women ' s as society ' s. --Hossain Zillur Rahman, PhD, Executive Chairman, Power and Participation Research Centre (PPRC) This book provides critical insights and is timely, as it outlines how girls and women in Bangladesh have gained more opportunities in labor force participation,

control over household and financial assets, as well as greater prospects for entrepreneurship. CUNY Office Assistant Simon and Schuster Muhammad Yunus is that rare thing: a bonafide visionary. His dream is the total eradication of poverty from the world. In 1983, against the advice of banking and government officials,

---

Yunus established Grameen, a bank devoted to providing the poorest of Bangladesh with minuscule loans. Grameen Bank, based on the belief that credit is a basic human right, not the privilege of a fortunate few, now provides over 2.5 billion dollars of micro-loans to more than two million families in rural Bangladesh. Ninety-four percent of Yunus's clients are women, and repayment rates are near 100 percent. Around the world, micro-lending programs inspired by Grameen are blossoming, with more than three hundred programs established in the United States alone. Banker to the Poor is Muhammad Yunus's memoir of how he decided to change his life in order to help the world's poor. In it he traces the intellectual and spiritual journey that led him to fundamentally rethink the economic relationship between rich and poor, and the challenges he and his colleagues faced in founding Grameen. He also provides wise, hopeful guidance for anyone who would like to join him in "putting homelessness and destitution in a museum so that one day our children will visit it and ask how we could have allowed such a terrible thing to go on for so

long." The definitive history of micro-credit direct from the man that conceived of it, Banker to the Poor is necessary and inspirational reading for anyone interested in economics, public policy, philanthropy, social history, and business. Muhammad Yunus was born in Bangladesh and earned his Ph.D. in economics in the United States at Vanderbilt University, where he was deeply

influenced by the civil rights movement. He still lives in Bangladesh, and travels widely around the world on behalf of Grameen Bank and the concept of micro-credit.
