IB Chinese A (SL): First language A: literature course, which introduces students to the analysis of literary texts. It is the course through which the IB's policy of mother-tongue entitlement is delivered. The course is organized into three areas of exploration and seven central concepts, and focuses on the study of literary works. Together, the three areas of exploration of the course add up to a comprehensive exploration of literature from a variety of cultures, literary forms and periods. Students learn to appreciate the artistry of literature, and develop the ability to reflect critically on their reading, presenting literary analysis powerfully through both oral and written communication. By referring HSK HSK 7-9 Plus Vocabulary Version 2021 (5636 Words), and IB syllabus, we edited new version for IB Chinese A (SL) Vocabulary 2022. Based on HSK (version 2009 and the latest version 2021), we edited a series of Chinese Vocabulary for those who are studying Chinese or preparing international examinations, such as IB, SAT, AP, IGCSE, GCSE Chinese. Theme-based learning is a way of teaching and learning, whereby many areas of the curriculum are connected together and integrated within a theme. For Chinese International exams, like IGCSE, IB, are evolving into Theme-based curriculum. Students develop the ability to communicate in the target language through the study of language, themes and texts. In this edition, we added more vocabulary and give the HSK classification, both Version 2009 and the latest Version 2021. Within each topic, the vocabulary are arranged by HSK V2021 levels. This will give teachers a guidance for difficulty level and allow students to set priority on the vocabulary they should know to read, write or both. Based on HSK (version 2009 and the latest version 2021), we edited a series of Chinese Vocabulary for those who are studying Chinese or preparing international examinations, such as IB, SAT, AP, IGCSE, GCSE Chinese. Compact, yet comprehensive, Manual of Critical Care Nursing: Interprofessional Collaborative Management, 8th Edition is the go-to reference for helping you provide safe, high-quality nursing care in critical care settings. Written in an abbreviated outline format, it presents essential information on more than 75 disorders and conditions, as well as concepts relevant to caring for critically ill patients and functioning in the critical care environment. Award-winning clinical nurse specialist Marianne Baird separates the content first by body system and then by disorder, with each disorder including a brief description of pathophysiology, assessment, diagnostic testing, collaborative management, nursing diagnoses, desired outcomes, nursing interventions, and patient teaching and rehabilitation. Coverage of more than 75 disorders most commonly seen in progressive and critical care settings equips you with all the content needed to handle problems in critical care nursing. Consistent, easy-to-use format mirrors a practicing nurse's approach to patient care and facilitates quick reference to vital information. Diagnostic Tests tables highlight the definition, purpose, and abnormal findings for each test. Gerontologic considerations and bariatric considerations are highlighted throughout to direct attention to

patients with unique needs in critical care settings. NOC outcomes and NIC interventions apply standardized nursing taxonomies to the disorders and conditions most commonly encountered in progressive and critical care settings. Portable size makes it ideal for use on the unit or at the bedside. Safety Alert! and High Alert! boxes call attention to issues vital to patient safety. NEW! Focused content and a more streamlined, quick-reference format emphasize generic "patient problems" language in lieu of nursing-specific diagnoses to promote interprofessional collaboration and improved communication facilitated by a shared language. UPDATED! Comprehensive coverage reflects the latest evidence-based practice and national and international treatment guidelines. NEW and UNIQUE! Coverage of interprofessional collaborative management includes Interprofessional Collaborative Management headings and tables that concisely summarize relevant performance measures while incorporating the best available patient care guidelines. NEW! Enhanced focus on need-to-know content facilitates quicker information retrieval in time-sensitive high acuity, progressive, and critical care settings.
