"An engrossing and impossibly wide-ranging project . . . In *The Free World*, every seat is a good one." —Carlos Lozada, *The Washington Post* "The Free World

sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high." —David Oshinsky, *The New York Times Book Review* | Editors' Choice One of *The New York Times*'s 100 best books of 2021 | One of *The Washington Post*'s 50 best nonfiction books of 2021 | A *Mother Jones* best book of 2021 In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political,

artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of "freedom" applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation

via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt's Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage's residencies at North Carolina's Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg's friendship with Lionel Trilling, James Baldwin's transformation into a Civil Right spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how

Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened.

The Bodleian's incunabula catalogue describes the Library's fifteenth-century western printed books to the same standards expected in the best modern catalogues of medieval manuscripts. It records and identifies all texts contained in each volume, and the detailed analysis of the textual content is an innovative feature. Further information about authors, editors, translators, and dedicatees is given in an extensive

index of names, complete with biographical and other information; this index will be of interest to textual scholars from the classical period to the renaissance. The detailed descriptions of the copy-specific features of each book (the binding, hand-decoration and hand-finishing, marginalia, and provenance) form another important contribution to scholarship. The provenance index will be of great value to all those interested in the history of the book from the 1450s to the present day.
