Why do some book covers instantly grab your attention, while others never get a second glance? Fusing word and image, as well as design thinking and literary criticism, this captivating investigation goes behind the scenes of the cover design process to answer this question and more. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW As the outward face of the text, the book cover makes an all-important first impression. The Look of the Book examines art at the edges of literature through notable covers and the stories behind them, galleries of the many different jackets of

bestselling books, an overview of book cover trends throughout history, and insights from dozens of literary and design luminaries. Co-authored by celebrated designer and creative director Peter Mendelsund and scholar David Alworth, this fascinating collaboration, featuring hundreds of covers, challenges our notions of what a book cover can and should be.

creations to find a more suitable alternative. Yours Sincerely Matthew Harper Journals with Lined Paper This book explores how military memoirs come to be written and published. Looking at the journeys through which soldiers and other military personnel become writers, the authors draw on over 250 military memoirs published since 1980 about service with the British armed forces, and on interviews with published military memoirists who talk in detail about the writing and production of their books. A range of themes are explored including: the nature of the military memoir; motivations

for writing; authors' reflections on their readerships; inclusions and exclusions within the text; the memories and materials that authors draw on; the collaborations that make the production and publication of military memoirs possible; and the issues around the design of military memoirs' distinctive covers. Written by two leading commentators on the sociology of the military, *Bringing War to Book* offers a new and original argument about the representations of war and the military experience as a process of social production. The book will be of interest to students and scholars across a range of disciplines including sociology, history, and

cultural studies.
