From the New York Times bestselling author of The Love Hypothesis comes a new STEM-inist rom-com in which a scientist is forced to work on a project with her nemesis—with explosive results. Like an avenging, purple-haired Jedi bringing balance to the mansplained universe, Bee

Königswasser lives by a simple code: What would Marie Curie do? If NASA offered her the lead on a neuroengineering project—a literal dream come true after years scraping by on the crumbs of academia—Marie would accept without hesitation. Duh. But the mother of modern physics never had to co-lead with Levi Ward. Sure, Levi is attractive in a tall, dark, and piercing-eyes kind of way. And sure, he caught her in his powerfully corded arms like a romance novel hero when she accidentally damseled in distress on her first day in the lab. But Levi made his feelings toward Bee very clear in grad school—archenemies work best employed in their own galaxies far, far away. Now, her

equipment is missing, the staff is ignoring her, and Bee finds her floundering career in somewhat of a pickle. Perhaps it's her occipital cortex playing tricks on her, but Bee could swear she can see Levi softening into an ally, backing her plays, seconding her ideas...devouring her with those eyes. And the possibilities have all her neurons firing. But when it comes time to actually make a move and put her heart on the line, there's only one question that matters: What will Bee Kö nigswasser do?

Robert McGinnis is once of the most admired, influential and prolific illustrators working today, best known for his astonishing career as a paperback cover artist. His first covers appeared in 1958, and since then he has painted over one thousand of them, for all the major publishers in all genres. He is most renowned for his portraits of women. The elegant, sexy and intelligent McGinnis Woman is as distinctive and recognizable as was the Gibson Girl in the early 1900's. McGinnis was elected to the Society of Illustrators Hall of Fame in 1993. McGinnis's paperback work is avidly sought after by collectors. However, collecting McGinnis covers has been a huge challenge, not only because of the

unprecedented volume of his work, but because he was often uncredited, he worked in a wide variety of styles, and many illustrators imitated him. No reliable checklist has been available until now. This book provides a complete and definitive bibliography documenting McGinnis's work as a paperback cover artist. With the artist's cooperation, it has been compiled by two long-time fans and collectors of his work, who began comparing notes and exchanging checklists in 1985. Over 250 paperback covers are reproduced in this book, along with many examples of the original art, model photos and preliminary sketches which afford an inside-the-studio look at the artist's working methods. The parade of covers-mysteries, westerns, romances, bestsellers-is a capsule graphic survey of trends in American mass market fiction of the last forty years, and of the extraordinary career of a gifted illustrator, Robert McGinnis.

In order to publish and sell a Book on any publishing website, you need a ready-to-print PDF layout that supports all the requirements of the publisher system. You can create the PDF independently or use other production software like InDesign, or you can buy a paid professional production service. Book cover creation is the very last creative step when publishing a book. That ' s because almost everything about the anatomy of a book cover is controlled by the final, edited version of the book: the trim size, paper color and number of

pages all determine your cover ' s dimensions. You need to design the cover after the final draft is finished. Book cover design is comprised of text and images. You must note: the front cover, back cover, spine, layout, picture, fonts, and other elements of the cover. The book consists of manuscript and cover. On the publishing website, you can upload your manuscript. The publishing website will automatically convert the manuscript to proofed PDF prior to publishing/printing. Depending on the publishing website, you can create your book cover using Cover Creator tool or submit your book cover in a PDF. Publishing Print books at KDP amazon kdp.amazon.com, Lulu.com and notionpress.com is straightforward, as you can just upload your manuscript as a PDF, DOC, DOCX, RTF, HTML, or TXT file. Kdp.amazon.com, notionpress.com and Lulu.com will automatically convert these file types to PDF prior to publishing/printing. You can create your book cover using Cover Creator tool within the websites. The free Cover Creator helps you to create and customize your eBook, paperback, or hardcover cover with a variety of layouts and fonts. Cover Creator uses the book details you enter during title setup and adds your book's ISBN to the barcode area on the back cover But other publishing websites

such as streetlib.com, ingramspark.com, blurb.com, press.barnesandnoble.com and feiyr.com requires from the authors to prepare the Paperback book manuscript in PDF format, and to design and submit the book cover in a PDF format according to their specifications. So, the author must have good knowledge on the formatting requirements for the book interior, and needs to create a paperback cover, using design software to be able to publish in such websites. So, when you create a paperback book, you need to format and upload two files: a manuscript file, which is the interior of your book, and a cover file, which is the outside of your book including the front, back, and spine. Here I will provide the steps on how to format both files, plus tools and resources to help you get started. The report consists from the following sections: 1. Book spine width calculator. 2. Online cover calculators. 3. Creating Barcode for the book ISBN. 4. Interior and cover files specifications for publishing at KDP amazon and using the online cover creator at KDP amazon. 5. Interior and cover files specifications for publishing at Lulu.com and using the online cover creator at Lulu.com. 6. Quick guideline for creating a bleed for your publication on Microsoft Word. 7. About 80% of people have the desire to write a book at some point. With the advance of computer and printing technology, this dream can become a reality. One important factor of publishing a book is to create a professional looking book cover. This book uses book cover design as a case study to teach you how to use FREE Scribus software (instead of expensive professional software like InDesign, Photoshop, and QuarkXpress) to create professional presentations. With

fewer words and many full color screenshots, we walk you step by step through the entire process. No prior experience is needed. You will learn how to: 1.Download all the FREE software needed. 2.Put the cover template in correct formats. 3.Set up the sheet correctly using units, colors (RGB or CMYK), layers, the imported cover template, sizes, guides, bleed area, and safety margin. 4.Add the background color for the cover with a shape or image frame. 5.Add the cover image and author's photo, as well as how to handle a fully bleed image. 6.Add the titles and text accurately, including information on selecting or changing the text color, using the text box, centering the text, aligning different text boxes, and rotating the text. 7.Add the barcode by extracting the barcode from an EPS file and moving all the barcode elements together or by adding the barcode as a JPEG image file. 8.Use Scribus software to create professional presentations such as book covers, magazine covers, graphic designs, posters, newsletters, renderings, and more. About the authors Alice Chen is an avid Scribus user. She has extensive interest in presentation software, and resides in California. Gang Chen holds a master's degree from the School of Architecture, University of Southern

California (USC), Los Angeles, and a bachelor's degree from the School of Architecture, South China University of Technology. He has over 20 years of professional experience. Many of the projects he was in charge of or participated in have been published extensively in Architecture, Architectural Record, The Los Angeles Times, The Orange County Register, etc. He has worked on a variety of unusual projects, including well-known, large-scale healthcare and hospitality projects with over one billion dollars in construction costs, award-winning school designs, highly-acclaimed urban design and streetscape projects, multifamily housing, high-end custom homes, and regional and neighborhood shopping centers. Gang Chen is a LEED AP and a licensed architect in California. He is also the internationally acclaimed author for other fascinating books, including Building Construction, Planting Design Illustrated, and the LEED Exam Guide series, which includes one guidebook for each of the LEED exams. We all love to read and learn from books, but The Repurposed Library takes our passion even further, presenting us with 33 projects to make--quite literally--out of books. For these projects, Lisa Occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home. Her creations range from artfully constructed mobiles, wreaths, and vases, to functional items like shelves, storage boxes, and even a Kindle "keeper" for those who want to replicate the sensation of holding a "real" book while reading from an e-reader. Projects utilize every imaginable part of a book--from

hardback cover to individual pages--and are a DIY celebration of a new way to view a book's potential. Praise for The Repurposed Library: "In an age when the bound book is an endangered species, [Occhipinti's] artwork is nicely topical. She now has a book of her own, The Repurposed Library, out this week from Stewart, Tabori & Chang. In it, she offers readers a how-to guide to making household objects from, well, books, like a mirror, a lamp and a fire screen, as well as the winsome mobile shown on the cover." - The New York Times "Book hoarders rejoice: all those random children's books, encyclopedias, and unread paperbacks are about to find their purpose . . . Furnished with cheery photographs and numerous hand-drawn diagrams, this endearing book will appeal to veteran crafters and literati alike." -BUST magazine "The book is really well-made, fittingly. The photography by Thayer Allyson Gowdy is wonderful and really shows off the projects—and everything in the background is as tastefully arranged as a Crate & Barrel catalog. . . . if you

love books as objects, The Repurposed Library is a fun collection of project ideas." —Wired.com "We love how everyday objects like a colorful collection of vintage books can double as décor. . . . If self-sufficiency and raising your own food is important to you, this book will help you pull together a complete farm-to-table experience. Gone are the days when grandma headed to the chicken coop in search of dinner. In this day and age, when fewer and fewer people know where their food comes from, How to Raise Chickens for Meat helps families take control of their food supply once again. Divided into four easy-to-navigate sections, How to Raise Chickens for Meat is packed with practical information. The first section, Getting Started, includes information on breed specifics, timing, and quantity. This section will help you analyze options and make informed decisions as you get started. The second section, Care & Feeding, dives into the specifics of keeping your flock healthy. Learn how to set up a brooder, what to feed your chickens, how to safely pasture them, and how to keep your flock

stress-free. The third section, Butchering, prepares you for one of the more challenging parts of raising chickens for meat. It addresses some of the emotions you may feel along with the actual process of butchering and provides practical tips to make it easier. It also discusses alternative options if you don't want to process your own chickens. The book concludes with cooking tips and delicious tried and true farm-to-table recipes to impress even the most doubtful family member! How to Raise Chickens for Meat is the resource your homestead library has been missing.
