easy ways to elevate every day, from America's most trusted lifestyle authority, in one must-have handbook *Inside* these pages Martha shares all her best good things--the original life hacks for the home--to make your life easier, more fun, more delicious, and more efficient. These practical tricks cover all areas of Martha's domestic expertise, including decorating, organizing, homekeeping, cooking, entertaining, and celebrating. From clever ways to

solve common problems (use file folder dividers to organize cutting boards and sheet pans in your cabinets) to time-saving tricks (keep a pail stocked with cleaning supplies for easy access and portability to stress reducers (color-code kids' bathroom gear to make mornings less hectic), every one of these ideas will make you wonder, "Why didn't I think of that?" Also included are ways to use what you have (a Parmesan cheese rind will add great flavor to soup), streamline

your stuff (use certain kitchen tools for many different purposes), or just make life a little more luxurious (add elegance to your table with DIY place cards). Whether functional, delightful, or a little bit of both, these are the details that enliven and inspire every day--that's a good thing! *The Backyard Guide to Caring for, Feeding, and Butchering Your Birds* Dr. Hidaia Mahmood Allassouli From the creators of the popular education

In order to publish and sell a Book on any publishing website, you need a ready-to-print PDF layout that supports all the requirements of the publisher system. You

can create the PDF independently or use other production software like InDesign, or you can buy a paid professional production service. Book cover creation is the very last creative step when publishing a book. That's because almost everything about the anatomy of a book cover is controlled by the final, edited version of the book: the trim size, paper color and number of pages all determine your cover's dimensions. You

need to design the cover after the final draft is finished. Book cover design is comprised of text and images. You must note: the front cover, back cover, spine, layout, picture, fonts, and other elements of the cover. The book consists of manuscript and cover. On the publishing website, you can upload your manuscript. The publishing website will automatically convert the manuscript to proofed PDF prior to publishing/printing. Depending on

the publishing book cover website, you can create your book cover using Cover Creator tool within the using Cover websites. The Creator tool or free Cover submit your Creator helps book cover in a you to create PDF. Publishing and customize Print books at your eBook, KDP amazon paperback, or kdp.amazon.com, hardcover Lulu.com and notionpress.com with a variety of layouts and is straightforward fonts. Cover ard, as you can just upload your manuscript as a PDF, DOC, DOCX, RTF, HTML, or TXT file. Kdp.amazon.com, notionpress.com and Lulu.com will automatically convert these file types to PDF prior to publishing/printing. You can create your book cover using Cover Creator tool within the using Cover websites. The Creator helps you to create and customize your eBook, paperback, or hardcover with a variety of layouts and fonts. Cover Creator uses the book details you enter during title setup and adds your book's ISBN to the barcode area on the back cover But other publishing websites such as pu streetlib.com, ingramspark.com, blurb.com, pr ess.barnesandno

ble.com and feiyr.com requires from the authors to prepare the Paperback book manuscript in PDF format, and to design and submit the book cover in a PDF format according to their specifications. So, the author must have good knowledge on the formatting requirements for the book interior, and needs to create a paperback cover, using design software to be able to publish in such websites. So, when you create a paperback book, you need to format and

upload two files: a manuscript file, which is the interior of your book, and a cover file, which is the outside of your book including the front, back, and spine. Here I will provide the steps on how to format both files, plus tools and resources to help you get started. The report consists from the following sections:

1. Book spine width calculator.
2. Online cover calculators.
3. Creating Barcode for the book ISBN.

References. *She Believed She Could So She Did Journal - Unlined Blank Paper* Penguin We all love to read and learn from books, but The Repurposed Library takes our passion even further, presenting us with 33 projects to make--quite literally--out

of books. For these projects, while reading Lisa Occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home. Her creations range from artfully constructed mobiles, wreaths, and vases, to functional items like shelves, storage boxes, and even a Kindle "keeper" for those who want to replicate the sensation of holding a

"real" book reader. Projects utilize every imaginable part of a book--from hardback cover to individual pages--and are a DIY celebration of a new way to view a book's potential. Praise for The Repurposed Library: "In an age when the bound book is an endangered species, [Occhipinti's] artwork is nicely topical. She now has a book of her own, The Repurposed Library, out this week from Stewart, Tabori

& Chang. In it, she offers readers a how-to guide to making household objects from, well, books, like a mirror, a lamp and a fire screen, as well as the winsome mobile shown on the cover." - The New York Times "Book hoarders rejoice: all those random children's books, encyclopedias, and unread paperbacks are about to find their purpose . . . Furnished with cheery photographs and numerous hand-drawn diagrams, this endearing book will

appeal to veteran crafters and literati alike." -BUST magazine "The book is really well-made, fittingly. The photography by Thayer Allyson Gowdy is wonderful and really shows off the projects—and everything in the background is as tastefully arranged as a Crate & Barrel catalog. . . . if you love books as objects, The Repurposed Library is a fun collection of project ideas." -Wired.com "We love how

Robert McGinnis is once of the most admired, influential

and prolific illustrators working today, best known for his astonishing career as a paperback cover artist. His first covers appeared in 1958, and since then he has painted over one thousand of them, for all the major publishers in all genres. He is most renowned for his portraits of

women. The elegant, sexy and intelligent McGinnis Woman is as distinctive and recognizable as was the Gibson Girl in the early 1900's. McGinnis was elected to the Society of Illustrators Hall of Fame in 1993. McGinnis's paperback work is avidly sought after by collectors. However,

collecting McGinnis covers has been a huge challenge, not only because of the unprecedented volume of his work, but because he was often uncredited, he worked in a wide variety of styles, and many illustrators imitated him. No reliable checklist has been available until now. This book

provides a complete and definitive bibliography documenting McGinnis's work as a paperback cover artist. With the artist's cooperation, it has been compiled by two long-time fans and collectors of his work, who began comparing notes and exchanging checklists in 1985. Over 250 paperback covers are

reproduced in this book, along with many examples of the original art, model photos and preliminary sketches which afford an inside-the-studio look at the artist's working methods. The parade of covers-mysteries, westerns, romances, bestsellers-is a capsule graphic survey of trends in American

mass market fiction of the last forty years, and of the extraordinary career of a gifted illustrator, Robert McGinnis.
